

# check it

Build Compliance into your Business Processes and Procedures.

Built for Microsoft Teams

## What we offer

Check it by Flyte is a solution to enhance how Business Process and Procedures are followed within your organisation. Built for Microsoft Teams, Check it is a checklist sharing and templating platform which enables Users and Teams to quickly share collaborative checklists within Microsoft Teams Chats, Channels and Conversations.

With a built-in template library, each User in the Organisation is able to easily find, share or create the template needed for the Business Processes, Procedures or activity they are undertaking.

The Check it solution can also be leveraged to help Organisations manage Compliance across Checklists and Processes. With several standard tools such as checklist activity timestamps and checklist management, Users can see exactly who did what, when and which tasks are still outstanding. This feature is particularly useful for applications where auditing is key such as Health & Safety, Risk Assessments and Legal.

## Introducing Flyte

Flyte are a Microsoft M365 specialist and Software Development company focused on delivering creative and effective technology-based solutions to a global customer base, across a breadth of industries and sectors.

# Why Microsoft 365?

## Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

## Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

## Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

## Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

## Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

## Key use cases

### Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

### Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
