

Service Definition

Cloud Readiness & Migration Assessment

Overview of VIQU IT

VIQU IT is a UK-based digital and technology consultancy providing flexible access to experienced cloud, infrastructure and transformation specialists.

We help public-sector organisations assess readiness for cloud adoption, define migration strategies and identify the most effective path to secure, scalable and cost-efficient cloud delivery, ensuring alignment with government standards and GDS / DDaT role definitions.

Service Summary

VIQU IT provides cloud architects and consultants who assess organisational, technical and security readiness for cloud transformation.

We deliver objective, standards-aligned analysis and migration planning, ensuring each stage supports compliance, performance and value for money while strengthening in-house capability and governance.

Service Overview

Cloud Readiness & Migration Assessment provides public-sector organisations with flexible access to specialist capability to assess cloud readiness and define a clear, evidence-based migration strategy.

Our consultants can operate as a standalone assessment function, collaboratively alongside internal teams and delivery partners, or embedded where deeper engagement is required, depending on organisational maturity and programme complexity.

We assess technical, operational, security and financial readiness, providing objective recommendations and migration roadmaps aligned to the GDS Technology Code of Practice, NCSC Cloud Security Principles and departmental governance models.

The service enables informed decision-making, reduces migration risk and supports the development of a robust, achievable path to secure, scalable and cost-effective cloud adoption.

Service Scope

- Cloud-readiness assessment and maturity analysis
- Current-state review of applications, data, and infrastructure
- Cloud-fit analysis and migration feasibility study
- Target operating model and architecture recommendations
- Options appraisal (public, private, hybrid, multi-cloud)
- Business-case support and total-cost analysis
- Governance, risk and compliance alignment
- Migration sequencing and roadmap creation
- Tooling and automation recommendations
- Knowledge transfer and stakeholder engagement sessions

Service Features

- Alignment with GDS and NCSC standards
- Certified cloud and migration specialists
- Structured readiness assessments and reporting
- Architecture and operating-model recommendations
- Cost, risk and dependency analysis
- Migration sequencing and roadmap delivery
- Flexible commercials (Time & Materials or SoW / Outcomes based)

Registration Number: 09170329

- Security-cleared consultants (BPSS / SC / DV)
- Collaborative delivery with client teams
- Knowledge transfer to build internal capability

Service Benefits

- Clear visibility of cloud readiness and migration options
- Reduced risk through structured planning and governance
- Informed decision-making based on objective assessment
- Accelerated transformation and value realisation
- Strengthened internal capability and ownership
- Cost-effective access to experienced cloud specialists
- Alignment to government cloud and security standards
- Improved business-case accuracy and ROI analysis
- Practical migration roadmap supporting delivery confidence
- Sustainable adoption with measurable outcomes

Onboarding and Offboarding

During onboarding, VIQU IT agrees assessment scope, stakeholders and required artefacts as part of a short initiation and discovery activity.

At offboarding, final reports, recommendations and knowledge-transfer sessions are delivered, ensuring readiness artefacts and roadmaps remain owned by the client.

Credentials

- Cyber Essentials Certified – baseline government security compliance.

VIQU Limited
Camomile House
6 Embassy Drive
Birmingham

Phone Number: +44(0) 121 227 8200
Registration Number: 09170329

- ICO Registered – GDPR and data-handling compliance.
- Consultants hold relevant certifications (e.g. AWS, Azure and GCP).
- Delivery aligned to GDS and NCSC cloud migration guidance.

Service Delivery Locations

Consultants based across the UK and available for remote, hybrid or on-site delivery as required.

All consultants are eligible for public-sector clearance (BPSS, SC, DV).

Delivery Model

Services delivered flexibly to meet organisational needs.

Engagements can be Time & Materials or Statement of Work / Outcomes based or hybrid model, agreed by scope and buyer preference.

This ensures agility, scalability and value for money.

Service Constraints

Delivery is typically remote or hybrid, with on-site attendance by agreement.

Where clearance (BPSS, SC, DV) is required, onboarding aligns to vetting timelines.

Access to client environments or security tooling may be required.

Delivery follows the organisation's security governance and change-control processes.

Engagements are Time & Materials or Statement of Work / Outcomes based.

Support Model

Support provided via email, phone and online communication during standard business hours (Monday–Friday, 9am–5pm).
