35+

Years of experience

9.1/10

Client satisfaction

How transformation happens

Marketing & advertising enablement

- Marketing analytics
- Commerce
- Content automation
- Content supply chain
- MarTech
- AdTech
- Personalisation
- Marketing operations

Technology & data excellence

- Enterprise data
- Digital products
- Scaled delivery
- AI value creation
- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

DATA & AI

- Automated Pipeline Delivery & Operations (DataOps)
- Advanced Analytics Delivery & Insights
- Microsoft Fabric Data & Analytics Services
- AWS Data Zone & Lake Formation Services
- Enterprise Data Capability Review
- Customer & Marketing Data Strategy
- Artificial Intelligence Platform Development & Operations
- Agentic Workplace/Process Automation (AI & RPA)
- Artificial Intelligence (AI) Data Readiness & Governance
- Data & Analytics Operating Model Design
- AI Strategy & Advisory Services

SOFTWARE ENGINEERING

- Cloud Application Modernisation
- Cloud/ Platform Engineering & Secure Delivery
- IT Estate Assessment & Cloud Readiness Review
- Integration Architecture & API Platforms
- Solution Architecture Services
- Architecture Operating Model Design
- Architecture Governance & Assurance
- Low-Code Cloud Delivery
- Full-Stack Digital Product Engineering
- Site Reliability Engineering (SRE) Enablement
- Cloud-Native Software Engineering
- DevOps/DevSecOps Transformation & Enablement

CLOUD

- Cloud Architecture & Solution Design
- Cloud Well-Architected Review/Health Check (AWS, Azure, GCP)
- Digital & Cloud Operations Enablement
- Cloud-Native Architecture & Modernisation
- Network Architecture & Cloud Migration Support
- Cloud Operating Model & Org Design
- Cloud & Data Centre Migration Services
- AWS Cloud Consulting & Modernisation
- Azure Cloud Consulting & Modernisation
- Google Cloud Consulting & Modernisation
- Cloud Service Management & Operations Transformation
- Cloud Strategy, Business Case & Roadmap
- Cloud Design Authority & Assurance Services
- Cloud FinOps & Cost Optimisation
- Cloud Governance, Risk & Compliance (GRC)
- Multi-Cloud Architecture & Implementation
- Private & Hybrid Cloud Implementation

Our Suite of Services

ADOBE

- Adobe Experience Cloud Platform Solution
- Adobe Experience Manager - Websites Implementation
- Adobe Experience Manager - Health Check / Audits
- CMS Bridge - Adobe Experience Manager Content Migration tool
- Content Supply Chain
- Adobe Analytics to Customer Journey Analytics Migration
- Google Analytics Universal to Customer Journey Analytics Migration
- Implementing Real-time CDP
- Implementing Adobe Journey Orchestration
- Adobe Target Run-and-Operate Personalisation
- Adobe WebSDK First Party Data Preservation

PEGA

- Pega Cloud Support & Managed Services
- Pega Intelligent Automation Implementation
- Pega Digital Experience Design
- Pega CRM Implementation & Optimisation
- Pega Customer Decisioning & Engagement
- Pega Modernisation, Migration & Platform Upgrade
- Legacy Application Transformation using AI

PROGRAMME DELIVERY

- User Research & Total Experience Strategy
- Agile Delivery & Programme Leadership
- Agile Transformation & Ways of Working
- Cloud Business Case & HMT Green Book Support
- User Experience (UX) Design & Prototyping
- Service Design & Journey Mapping
- Digital & Technology Business Strategy
- Change Management & Communications
- Innovation Operating Model & Governance
- Cloud Programme & Project Management
- Cloud Service & Vendor Transition Management
- Delivery Assurance & Programme Health Checks
- PMO as a Service (Portfolio & Programme)
- Portfolio & Programme Management
- Cloud, Digital and Data Delivery Partner Services
- Technology Sourcing & Managed Procurement Services
- SaaS Application Migration
- Testing & Quality Assurance (QA)
- Business Analysis Services
- Operating Model Design & Transformation
- Scaling Innovation Pipelines & Portfolios
- Innovation Capability & Maturity Assessment
- Digital Service Delivery: Discovery, Alpha and Beta

MARTECH

- CRM Strategy, Design & Implementation
- Marketing Cloud Maturity Assessment
- Marketing Cloud Implementation
- Marketing Cloud Optimisation
- Marketing Cloud Strategy & Roadmap
- Customer 360 / Single Customer View Build
- Content Management System Implementation
- Enterprise Content Management Solutions
- Customer Data Platform Implementation
- SEO, GEO & Organic Performance Optimisation
- MarTech Operating Model & Governance

SALESFORCE

- Salesforce Marketing & CRM Implementation Services
- Salesforce Marketing & CRM Managed Support Services
- Salesforce Health Checks & Optimisation Assessments
- Salesforce Data Services
- Salesforce AgentForce and AI

Site Reliability Engineering (SRE) Enablement

Credera will help you introduce SRE practices by working with your teams. We bring experienced practitioners that drive evolution within your environments and operations. SRE operating models include Service Level Indicators, Objectives, Error Budgets, observability, and on-call capabilities. Embedding SRE within your practices drives more reliable, scalable, and predictable operations.

Features

1. Train and coach department staff on SRE practices, including pairing
2. Define and implement operating models based on SRE principles
3. Define key service metrics: service level indicators, objectives, error budgets
4. SRE-enabling tooling: operations automation, observability, monitoring, alerting, on-call rota management
5. Introduce modern reliability engineering practices, including chaos engineering and post-mortems
6. Provision fully managed services for operations based on SRE practices
7. Lead and support change of teams, departments to SRE practices

Benefits

1. Improved mean time to recovery, time between failures for services
2. Greater scalability of operations aligned with DevOps culture
3. Greater predictability in engineering effort that is dedicated to operations
4. Reduction in manual effort involved in operations
5. Reduced time to diagnose functional and non-functional (performance, security) issues
6. Build a resilient, high-performing and enduring capability in your teams
7. Clear, well documented and maintainable processes

Site Reliability Engineering (SRE) Enablement

Service Definition

OUR PERSPECTIVE

- Site Reliability Engineering (SRE) enables DevOps practices to be implemented in a concrete and quantitative way, giving engineering organisations the ability to balance release frequency against operational risk dynamically.
- Done correctly, SRE enables a model for operations that can bridge the gap between "you build it, you run it" approaches and large-scale operations discipline.
- Successful introduction of SRE requires widespread cultural change and sustained investment in high quality operational tooling, particularly observability and monitoring.

PURPOSE & OBJECTIVES

- To help departmental engineering and operations teams to introduce Site Reliability Engineering practices through cultural and process change.
- To help departments build the technology foundations needed to embrace SRE, including observability, monitoring, on-call and chaos testing tooling.
- To help product leaders and their engineering teams move to a risk-based approach to high velocity software development and release.

OUR APPROACH

- We conduct SRE readiness and maturity reviews to identify the best approach to moving your team(s) to an SRE model, across all aspects of the operating model from training to tooling.
- We support leadership in making the case for change, sharing relevant success stories, previous challenges and how they have been overcome, and supporting educational sessions.
- We provide experienced SRE practitioners who work alongside your teams, including on an on-call basis if needed, to help them live SRE practices.

OUR CAPABILITIES

- Our teams are experienced with a wide variety of SRE-enabling, including open-source tools and cloud native offerings in AWS, Azure and GCP.
- We have a range of real-world experience introducing SRE models across different sectors.
- We bring accelerators, training materials, templates and more to help accelerate the adoption of SRE.
- We can augment your teams to build and leverage SRE-enabling tooling, including modern observability toolsets.

OUR EXPERIENCE

- We have worked with public and private sector organisations to introduce modern engineering practices, including SRE.
- Our clients include government departments, and multiple FTSE100 organisations with demanding security and reliability requirements.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
