How transformation happens

Marketing & advertising enablement

- Marketing analytics
- Commerce
- Content automation
- Content supply chain
- MarTech
- AdTech
- Personalisation
- Marketing operations

Technology & data excellence

- Enterprise data
- Digital products
- Scaled delivery
- AI value creation
- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

DATA & AI

- Automated Pipeline Delivery & Operations (DataOps)
- Advanced Analytics Delivery & Insights
- Microsoft Fabric Data & Analytics Services
- AWS Data Zone & Lake Formation Services
- Enterprise Data Capability Review
- Customer & Marketing Data Strategy
- Artificial Intelligence Platform Development & Operations
- Agentic Workplace/Process Automation (AI & RPA)
- Artificial Intelligence (AI) Data Readiness & Governance
- Data & Analytics Operating Model Design
- AI Strategy & Advisory Services

SOFTWARE ENGINEERING

- Cloud Application Modernisation
- Cloud/ Platform Engineering & Secure Delivery
- IT Estate Assessment & Cloud Readiness Review
- Integration Architecture & API Platforms
- Solution Architecture Services
- Architecture Operating Model Design
- Architecture Governance & Assurance
- Low-Code Cloud Delivery
- Full-Stack Digital Product Engineering
- Site Reliability Engineering (SRE) Enablement
- Cloud-Native Software Engineering
- DevOps/DevSecOps Transformation & Enablement

CLOUD

- Cloud Architecture & Solution Design
- Cloud Well-Architected Review/Health Check (AWS, Azure, GCP)
- Digital & Cloud Operations Enablement
- Cloud-Native Architecture & Modernisation
- Network Architecture & Cloud Migration Support
- Cloud Operating Model & Org Design
- Cloud & Data Centre Migration Services
- AWS Cloud Consulting & Modernisation
- Azure Cloud Consulting & Modernisation
- Google Cloud Consulting & Modernisation
- Cloud Service Management & Operations Transformation
- Cloud Strategy, Business Case & Roadmap
- Cloud Design Authority & Assurance Services
- Cloud FinOps & Cost Optimisation
- Cloud Governance, Risk & Compliance (GRC)
- Multi-Cloud Architecture & Implementation
- Private & Hybrid Cloud Implementation

Our Suite of Services

ADOBE

- Adobe Experience Cloud Platform Solution
- Adobe Experience Manager - Websites Implementation
- Adobe Experience Manager - Health Check / Audits
- CMS Bridge - Adobe Experience Manager Content Migration tool
- Content Supply Chain
- Adobe Analytics to Customer Journey Analytics Migration
- Google Analytics Universal to Customer Journey Analytics Migration
- Implementing Real-time CDP
- Implementing Adobe Journey Orchestration
- Adobe Target Run-and-Operate Personalisation
- Adobe WebSDK First Party Data Preservation

PEGA

- Pega Cloud Support & Managed Services
- Pega Intelligent Automation Implementation
- Pega Digital Experience Design
- Pega CRM Implementation & Optimisation
- Pega Customer Decisioning & Engagement
- Pega Modernisation, Migration & Platform Upgrade
- Legacy Application Transformation using AI

PROGRAMME DELIVERY

- User Research & Total Experience Strategy
- Agile Delivery & Programme Leadership
- Agile Transformation & Ways of Working
- Cloud Business Case & HMT Green Book Support
- User Experience (UX) Design & Prototyping
- Service Design & Journey Mapping
- Digital & Technology Business Strategy
- Change Management & Communications
- Innovation Operating Model & Governance
- Cloud Programme & Project Management
- Cloud Service & Vendor Transition Management
- Delivery Assurance & Programme Health Checks
- PMO as a Service (Portfolio & Programme)
- Portfolio & Programme Management
- Cloud, Digital and Data Delivery Partner Services
- Technology Sourcing & Managed Procurement Services
- SaaS Application Migration
- Testing & Quality Assurance (QA)
- Business Analysis Services
- Operating Model Design & Transformation
- Scaling Innovation Pipelines & Portfolios
- Innovation Capability & Maturity Assessment
- Digital Service Delivery: Discovery, Alpha and Beta

MARTECH

- CRM Strategy, Design & Implementation
- Marketing Cloud Maturity Assessment
- Marketing Cloud Implementation
- Marketing Cloud Optimisation
- Marketing Cloud Strategy & Roadmap
- Customer 360 / Single Customer View Build
- Content Management System Implementation
- Enterprise Content Management Solutions
- Customer Data Platform Implementation
- SEO, GEO & Organic Performance Optimisation
- MarTech Operating Model & Governance

SALESFORCE

- Salesforce Marketing & CRM Implementation Services
- Salesforce Marketing & CRM Managed Support Services
- Salesforce Health Checks & Optimisation Assessments
- Salesforce Data Services
- Salesforce AgentForce and AI

Testing & Quality Assurance (QA)

Credera's Testing and Quality Assurance services ensure system reliability, functionality, and performance. With experienced QA professionals, we deliver comprehensive testing strategies tailored to your objectives. From functional and performance testing to automation, we guarantee high-quality outcomes, reducing risk and ensuring robust, user-ready solutions for complex digital environments.

Features

1. Comprehensive tailored testing strategy, functional testing, performance testing, automation
2. Load Testing: design and execute load tests under various conditions
3. Stress Testing: simulate scenarios under stress and identify failure points
4. Scalability Testing: value how effectively an application scales and expands
5. Security Testing Integration: incorporate security testing techniques to identify vulnerability
6. Custom Reporting and Analytics: generate custom reports and analytics dashboards
7. Recommendations: collaborate with development teams to improve team performance
8. Performance Monitoring: monitor key metrics and performance indicators in real-time
9. Performance Analysis: to identify performance hotspots within an application
10. Test Case Design/Execution: develop test cases based on requirements

Benefits

1. Clearly defined testing objectives, techniques, and performance benchmarks ensure quality
2. Identifies bottle necks and areas for optimisation
3. robustness and resilience of an application beyond expected use
4. Give confidence in longevity of a system and growth potential
5. Allows for issues to be found and fixed before deployment
6. highlights areas for improvement and provide recommendations for optimisation.
7. Data lead insights on areas for improvement and refinement
8. Real time data to facilitate effective decision making and reporting
9. Pinpoint performance bottlenecks and recommend optimisation strategies.
10. Ensuring thorough coverage of functional, non-functional and performance aspects

Testing & Quality Assurance (QA)

Service Definition

OUR PERSPECTIVE

- We recognise the importance of performance testing and quality assurance to ensure the quality, reliability, scalability, and usability of software products and systems.
- Quality is at the forefront, which means ensuring the software meets the specified requirements, standards, and specifications. There is an emphasis on a customer-centric approach, which entails understanding requirements clearly, working closely with cross-functional teams, and completing testing activities with a focus on continuous improvement and implementing learnings throughout the project.

PURPOSE & OBJECTIVES

- Our primary purpose is to optimise application performance by conducting comprehensive performance testing and QA assessments, identifying bottlenecks, vulnerabilities, and improvement opportunities.
- We ensure the reliability, functionality, and performance of systems. With a team of experienced testing and QA professionals leveraging AI we offer comprehensive testing solutions to meet our client's quality objectives.
- We aim to ensure user satisfaction by validating that applications meet performance requirements, including speed, responsiveness, and reliability, under varying load conditions and usage scenarios.

OUR APPROACH

- We conduct comprehensive performance testing using industry-leading tools and methodologies, including generative AI, to speed the process. Our testing capability includes load, stress, and scalability testing to evaluate application performance under real-world conditions.
- We provide end-to-end quality assurance services, including functional, regression, and usability testing, to ensure that applications meet functional requirements and user expectations.
- In the event of performance issues, we conduct root cause analysis to identify underlying issues and develop targeted solutions to address them.

OUR CAPABILITIES

- Our core capabilities in Performance Testing and QA include a deep understanding of testing methodologies and tailoring to the client context, utilising testing tools, developing test plans and strategies, completing test design activities, applying test automation, completing test analysis and defect management steps, and providing efficient communications and reporting.
- We prioritise continuous learning and development for our team members, ensuring they stay up-to-date with the latest trends, technologies, and best practices in performance testing and QA.

OUR EXPERIENCE

- We have a proven track record of delivering successful performance testing projects for clients across diverse industries and sectors, helping them optimise application performance and user satisfaction.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
