- Digital products
- Scaled delivery
- AI value creation
- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

DATA & AI

- Automated Pipeline Delivery & Operations (DataOps)

Customer Data Platform Implementation

Credera delivers customer data platform implementation to unify customer data, integrate marketing automation, and enable targeted strategies. We consolidate customer profiles, segment audiences, and provide dashboards for insights, empowering organisations to deliver cohesive customer experiences, make data-driven decisions, and comply with privacy regulations while optimising the full customer journey.

Features

1. Integrated customer data platform
2. Integrated marketing automation tool
3. Customer segmentation for targeted marketing
4. Customisable dashboards for data metrics
5. Unified customer data profile - Adobe, Salesforce, Tealium, Treasure Data
6. Data privacy and compliance management
7. Audience journey mapping and insights
8. Data integration across multiple systems
9. Analytics and reporting capabilities
10. Enablement for activation of marketing campaigns

Benefits

1. Centralised audience and user data
2. Unified user and content experience across all touchpoints
3. Holistic view of users journeys
4. Delivers timely and actionable insights
5. Ensures compliance with data privacy regulations
6. Visualises data for strategic decision-making
7. Enables targeted marketing and segmentation
8. Faster, data-driven marketing activation
9. Improved campaign effectiveness and ROI
10. Scalable platform

Customer Data Platform Implementation

Service Definition

OUR PERSPECTIVE

- We view the integration of a Customer Data Platform (CDP) as a crucial step towards unifying disparate customer data sources, delivering a cohesive and personalised customer experience across all channels.
- Without a CDP, customer data often remains siloed across various systems, and the complexity of integrating multiple data sources can be underestimated.

PURPOSE & OBJECTIVES

- To implement and integrate a CDP that centralises customer data from multiple touchpoints, providing a single source of the truth for personalised marketing efforts.
- Integrate automation tools with the CDP to enable efficient, data-driven campaigns and interactions.
- Simplify the process for marketing teams to access and act on customer data, increasing agility and responsiveness in team operations.

OUR APPROACH

- We conduct assessments of existing data architecture to plan a strategic CDP integration that aligns with business objectives.
- Our team performs custom integrations of the CDP with existing marketing automation tools and databases and is equipped with the knowledge and skills to leverage the CDP and automation tools.

OUR CAPABILITIES

- Credera has experience integrating leading CDP solutions with various marketing automation tools, ensuring a best-fit approach for our clients.
- We excel at managing large-scale data migrations, consolidations and integrations and provide training programs and ongoing support to ensure our clients' teams can fully utilise the CDP effectively.

OUR EXPERIENCE

- For a retail bank, we collaborated with Google Cloud to initiate their CDP and transformation.
- In the food industry, we leveraged data insights for a client, unified their customer experience by integrating a customer data platform with a marketing automation tool, and led change management initiatives to encourage the use of the new system.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
