How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Implementing Adobe Journey Orchestration

Implement this component of Adobe Experience Platform with other parts of the system, e.g., Real-time CDP, and CJA, identify and prioritise CDP use cases, create business cases for each use case and integrate the data model. Understand the current and future analytics operating model, to ensure quick adoption and ROI.

Features

1. Activate customer activity across multiple touchpoints and channels in real-time
2. Use one tool for all omnichannel customer journey activation efforts
3. Leverage the most current knowledge on customer activity
4. Rely on AI to enhance customer and prospect segmentation

Benefits

1. Grow customer lifetime value through timely, relevant messaging and actions
2. Improve outcomes by reaching customers in preferred channels
3. Unify teams around immediate campaign effectiveness feedback
4. Enable decisioning on campaign and personalisations across channels

Implementing Adobe Journey Orchestration

Service Definition

OUR PERSPECTIVE

- We champion the implementation of Adobe Journey Orchestration to streamline and enhance customer interactions across all touchpoints. We focus on leveraging this technology to deliver personalised customer journeys that improve engagement and conversion rates.
- We often see clients implementing use cases that do not align with strategic business goals, not establishing clear KPIs and methods for tracking ROI, and Failing to fully integrate journey orchestration with other AEP components like Real-time CDP and CJA.

PURPOSE & OBJECTIVES

- Our primary goal is to implement Adobe Journey Orchestration to enable seamless, personalised customer interactions at scale. This involves leveraging the capabilities of AEP to enhance the quality and consistency of customer engagements.
- We aim to optimise the integration of Adobe Journey Orchestration with Real-time CDP and CJA, facilitating a seamless flow of real-time data and insights across platforms to enrich customer journey decisions and execution.

OUR APPROACH

- We conduct a detailed analysis to identify and prioritise journey orchestration use cases based on their potential business impact, feasibility, and ROI. This ensures alignment with the company's strategic goals and customer experience objectives.
- For each use case, we create a compelling business case that outlines the expected benefits, cost implications, and ROI. These business cases help secure internal buy-in and funding for the implementation.
- We ensure that the Adobe Journey Orchestration data model is fully integrated with other key components, such as the Real-time CDP and CJA, enhancing data accessibility and usability across systems.

OUR CAPABILITIES

- Our team possesses extensive expertise in Adobe Experience Platform, including specialised knowledge in Journey Orchestration, Real-time CDP, and CJA, allowing us to offer tailored solutions that meet diverse client needs.
- We employ advanced methodologies and industry best practices to identify and prioritise journey orchestration use cases that deliver significant business value and customer impact.
- We excel in integrating complex data models, ensuring that data flows seamlessly across the Adobe platform to support real-time insights and actions.

OUR EXPERIENCE

- We have successfully implemented Adobe Journey Orchestration for clients across various sectors, achieving enhanced customer engagement, increased conversions, and significant ROI.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.
