How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

AWS Cloud Consulting & Modernisation

Credera, an AWS Premier Consulting Partner, designs, migrates and modernises secure, well-architected AWS platforms, using services such as serverless, containers and managed data and AI. Specialists optimise cost, performance and reliability, accelerating value for enterprise and government workloads with cloud-native engineering and modern operations.

Features

1. Cloud data migration services (e.g. AWS Direct Connect, DataSync, Snowball)
2. Cloud native application development
3. CI/CD pipeline creation (AWS CodeCommit, and AWS CodeDeploy through production)
4. Database and storage services (AWS RDS, Aurora DB, AWS S3)
5. Elastic compute and serverless compute assistance (e.g. EC2, Lambda)
6. Backup and archive strategy (e.g. S3 Glacier)
7. Identity and Access Management (IAM)
8. Monitoring and audit (e.g. CloudWatch and CloudTrail)
9. Security and Compliance (AWS KMS, CloudHSM, Config)
10. Consolidated Billing and Service Control Policies (AWS Organisations)

Benefits

1. Best practice guidance from our cloud experts
2. Improved application scalability, reliability, and flexibility
3. Disaster recovery of business-critical data and application
4. Application architecture with cloud experts
5. Faster delivery from requirements to production
6. Security, compliance, and audit requirements met
7. Technical assurance from our cloud subject matter experts
8. Achieving cost optimisation
9. Accelerate your organisation's cloud objectives
10. Credera employees hold over 290 AWS certifications

AWS Cloud Consulting & Modernisation

Service Definition

OUR PERSPECTIVE

- Navigating AWS pricing and cost management can be complex and, if not managed properly, can lead to unexpected expenses.
- AWS's shared responsibility model requires precise configuration management to ensure security. Many organisations are not aware of/do not fully utilise the breadth of services AWS offers, which can result in solutions that do not fully meet their needs or maximise their investment.

PURPOSE & OBJECTIVES

- From initial cloud strategy and planning through to migration, optimisation and management support, our purpose is to offer a comprehensive suite of services that support all phases of our clients' AWS cloud journey.
- We aim to maximise the cost-effectiveness, sustainability and performance of AWS environments, reducing waste and improving service delivery.

OUR APPROACH

- Partnering with AWS enables us to provide cutting-edge solutions that leverage the breadth of AWS technologies for scalable, resilient and efficient cloud infrastructure, helping clients harness the power of modern app, data, analytics and AI/ML.
- We recognise that each business has unique needs and challenges, so we tailor our approach and services to fit their specific requirements.
- Our approach is grounded in AWS's well-architected frameworks and evolving industry best practices, ensuring high-quality implementations.

OUR CAPABILITIES

- Our team includes AWS-certified architects, developers, and system operations who are well-versed in the latest AWS technologies and methodologies.
- As an AWS Premier tier consulting partner, we have access to AWS training, support and resources, which bolsters our service capabilities.

OUR EXPERIENCE

- We have extensive experience architecting and engineering cloud, data platform modernisation, analytics and AI solutions across various industries, including the public sector, financial services & insurance and energy.
- We are experienced in multi-cloud solutions, integrating AWS with other providers.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBOARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
