How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Azure Cloud Consulting & Modernisation

Credera accelerates Azure adoption and modernisation. We define strategy and consumption models, design landing zones, harden security and implement DevOps with infrastructure-as-code. We modernise applications, improve observability and optimise costs. Knowledge transfer builds sustainable capability and measurable outcomes. These and other solutions are delivered following the Microsoft Cloud Adoption Framework.

Features

1. Azure strategy, architecture and consumption model
2. Well-Architected assessment and remediation guidance
3. Landing zone design, identity and network integration
4. Modernisation: containers, serverless, PaaS services
5. DevOps pipelines, IaC and automated deployments
6. Security hardening and compliance governance
7. Observability: metrics, logs and tracing
8. Data platform modernisation and analytics enablement
9. Cost optimisation and FinOps practices for Azure
10. Knowledge transfer and capability uplift

Benefits

1. Faster delivery on a secure Azure foundation
2. Improved reliability and performance under demand
3. Accelerated modernisation with fewer rework cycles
4. Consistent environments via automated pipelines
5. Stronger security posture and compliance alignment
6. Deep visibility for diagnostics and optimisation
7. Scalable architectures aligned to business outcomes
8. Insight-ready data platforms drive value
9. Lower run costs through targeted optimisation
10. Internal teams enabled; sustainable Azure capability

Azure Cloud Consulting & Modernisation

Service Definition

OUR PERSPECTIVE

- Microsoft Azure and the wider Microsoft Cloud ecosystem is a catalyst for digital transformation, enabling organisations to innovate, scale, and modernise with confidence.
- Realising the full value of Azure requires strategic planning, robust governance, and a clear focus on security, compliance, and future scalability. Without these, organisations risk escalating costs, limited agility, and missed opportunities for business growth.
- Without careful planning and management, the costs associated with Microsoft cloud services can escalate, impacting budget and ROI.

PURPOSE & OBJECTIVES

- Our service accelerates cloud adoption by delivering tailored Microsoft Azure solutions that align with each client's strategic objectives.
- We focus on enhancing agility, operational efficiency, and scalability through automation, advanced cloud services, and seamless integration with the wider Microsoft ecosystem.
- Our aim is to ensure that Azure investments drive business growth, improve service delivery, and maximise return on investment.

OUR APPROACH

- We provide end-to-end Azure consulting, from initial planning and migration through to deployment, optimisation, and ongoing management.
- Our solutions are designed to integrate Azure with Dynamics 365, Microsoft 365, and other platforms, supporting complex business processes and multi-cloud environments.
- We adopt a strategy of continuous improvement, advising clients on the latest Microsoft technologies and industry best practices to ensure solutions remain secure, compliant, and future-ready.

OUR CAPABILITIES

- Credera's team comprises Microsoft-certified professionals with deep expertise across Azure, and Microsoft 365.
- We deliver innovative, secure, and compliant solutions, leveraging Microsoft's robust security features and our experience in regulated industries.
- Our capabilities span architecture, engineering, automation, governance, and integration, supporting clients in both single and multi-cloud environments.

OUR EXPERIENCE

- We have architected and delivered Azure-based cloud and data solutions for clients in the public sector, financial services, insurance, retail, and energy.
- Our experience includes complex migrations, multi-cloud integrations, and the implementation of secure, scalable platforms that support digital transformation and ongoing business success.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information
