How transformation happens

Marketing & advertising enablement

- Marketing analytics
- Commerce
- Content automation
- Content supply chain
- MarTech
- AdTech
- Personalisation
- Marketing operations

Technology & data excellence

- Enterprise data
- Digital products
- Scaled delivery
- AI value creation
- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

DATA & AI

- Automated Pipeline Delivery & Operations (DataOps)
- Advanced Analytics Delivery & Insights
- Microsoft Fabric Data & Analytics Services
- AWS Data Zone & Lake Formation Services
- Enterprise Data Capability Review
- Customer & Marketing Data Strategy
- Artificial Intelligence Platform Development & Operations
- Agentic Workplace/Process Automation (AI & RPA)
- Artificial Intelligence (AI) Data Readiness & Governance
- Data & Analytics Operating Model Design
- AI Strategy & Advisory Services

SOFTWARE ENGINEERING

- Cloud Application Modernisation
- Cloud/ Platform Engineering & Secure Delivery
- IT Estate Assessment & Cloud Readiness Review
- Integration Architecture & API Platforms

AI Strategy & Advisory Services

Credera delivers practical AI strategy and advisory services to define, prioritise, and govern AI initiatives aligned to organisational goals, risk tolerance, and ethical standards. We help public sector buyers identify value-led use cases, shape roadmaps, and embed responsible AI capability for sustainable outcomes across diverse objectives.

Features

1. AI vision, strategy, and target-state definition
2. AI opportunity identification and use-case prioritisation
3. Business case development and value realisation planning
4. AI operating model design for people, process, and technology
5. Responsible AI, ethics, and regulatory compliance advisory
6. Data readiness and AI capability maturity assessments
7. Technology and platform strategy across cloud and vendors
8. AI governance frameworks, controls, and decision forums
9. Roadmap definition for phased AI adoption and scaling
10. Executive advisory and stakeholder alignment support

Benefits

1. Clear, actionable AI strategy aligned to organisational objectives
2. Prioritised AI investments focused on highest-value outcomes
3. Reduced delivery risk through informed feasibility and readiness assessments
4. Stronger executive confidence in AI-related decision-making
5. Responsible AI adoption aligned with ethics and regulatory expectations
6. Improved coordination across business, data, and technology teams
7. Accelerated transition from experimentation to production AI
8. Future-proofed AI platforms and vendor decisions
9. Transparent governance reducing operational and reputational risk
10. Sustainable AI capabilities embedded into business-as-usual operations

AI Strategy & Advisory Services

Service Definition

OUR PERSPECTIVE

- AI delivers value only when it is aligned to business strategy, supported by the right operating model, and governed appropriately.
- Many organisations struggle not with technology, but with prioritisation, decision-making, and translating ambition into executable plans.
- Our perspective is that successful AI adoption starts with clear strategic intent, informed choices, and strong executive ownership.

PURPOSE & OBJECTIVES

- Our purpose is to help organisations define a clear, pragmatic AI strategy that aligns investment with business outcomes while managing risk and regulatory expectations.
- We support leadership teams in setting direction, prioritising high-value opportunities, establishing appropriate governance and operating models, and building the confidence required to move from experimentation to scalable, production-grade AI.

OUR APPROACH

- We take a structured, outcome-led approach combining strategic assessment, executive engagement, and roadmap definition. We work closely with senior stakeholders to assess readiness, evaluate options, and make informed trade-offs across value, risk, and feasibility.
- Our approach balances ambition with pragmatism, ensuring strategies are actionable, aligned to organisational context, and executable within existing constraints.

OUR CAPABILITIES

- We provide end-to-end AI strategy and advisory support spanning vision and target-state definition, use-case prioritisation and business case development, AI operating model and governance design, responsible AI and regulatory advisory, data and capability maturity assessment, technology and platform strategy, and the definition of phased roadmaps for adoption and scaling.

OUR EXPERIENCE

- We have supported organisations across public and regulated sectors to define and deliver AI strategies that translate into tangible outcomes. Our experience includes executive advisory, large-scale transformation programmes, and the establishment of sustainable AI capabilities that are embedded into business-as-usual operations.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
