How transformation happens

Marketing & advertising enablement

- Marketing analytics
- Commerce
- Content automation
- Content supply chain
- MarTech
- AdTech
- Personalisation
- Marketing operations

Technology & data excellence

- Enterprise data
- Digital products
- Scaled delivery
- AI value creation
- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

Customer 360 / Single Customer View Build

Credera delivers Customer 360 and single customer view builds, combining strategy, governance and data engineering. We unify customer data, resolve identities and enable analytics, personalisation and engagement use cases, providing a trusted foundation for insight-led decision-making and scalable outbound communications across marketing and service platforms.

Features

1. Single customer view strategy, use case identification and prioritisation
2. Organisational and operating model assessment
3. Mastered customer attribute definition and ownership
4. Customer data architecture and design patterns
5. Identity resolution and data unification
6. Single customer view data engineering and build
7. MarTech and engagement platform integration
8. Activation of priority personalisation and dynamic content use cases
9. Analytics capability assessment and optimisation
10. Adobe, Salesforce, Tealium, Treasure Data expertise

Benefits

1. Trusted single audience view aligned to organisational ownership
2. Improved conversion rates across channels
3. Improved user engagement and retention
4. Scalable foundation for future customer services
5. Consistent personalisation at scale
6. Greater speed and depth of user insights

Customer 360 / Single Customer View Build

Service Definition

OUR PERSPECTIVE

- We believe that developing a Customer 360 / Single Customer view (SCV) is essential for creating a comprehensive and unified understanding of each customer. This enables personalised marketing, sales, and service interactions based on a consolidated profile of behaviours, preferences and needs.
- Some of the most significant challenges in developing SCV are failing to integrate all relevant data sources, neglecting to incorporate strict data privacy standards and compliance with regulations, and lack of organisational buy-in.

PURPOSE & OBJECTIVES

- To aid in developing a SCV that aggregates data from multiple touchpoints and systems into a cohesive, accessible, and actionable customer profile, enhancing personalised customer interactions and operational efficiency.
- Aggregate and harmonise data from various sources, including online, offline, transactional, and behavioural data, to create a complete and accurate customer profile. Then, leverage this data to deliver personalised marketing campaigns and tailored customer service experiences.
- Utilise the insights derived from the SCV to make informed decisions that enhance customer satisfaction and optimise business processes.

OUR APPROACH

- We take a structured approach to Customer 360 / SCV development, ensuring a thorough assessment of existing data structures and sources. Followed by the development of a strategic plan to integrate disparate data into a unified customer database.
- We recommend and implement the best-fit technology solutions that facilitate efficient data integration and management.

OUR CAPABILITIES

- Our team has deep expertise in integrating complex data systems and utilising advanced ETL processes to build a comprehensive SCV.
- We focus on developing scalable SCV solutions that ensure data security and privacy and adhere to the highest standards of regulatory compliance.

OUR EXPERIENCE

- For a retail client, we developed a baseline business design to achieve a unified customer view and established a strategy to encourage the uptake/adoption of new capabilities.
- For a top UK insurer, we facilitated efforts to enhance value derived from data across various sectors, including life and pensions, wealth management, health insurance, and general insurance.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
