- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

DATA & AI

Pega Cloud Support & Managed Services

Credera's next generation Pega cloud support and managed service brings together our experts with best-in-class tools, methodologies and accelerators to deliver continuous value and lower the total cost of monitoring and managing applications on Pega. We deliver significant efficiencies and YoY productivity savings while keeping the lights on.

Features

1. On-demand pool of experienced Pega resources for application support
2. Shared best practices and technical experiences
3. Minor changes, enhancements, Pega cloud migration support and upgrades
4. Ongoing Continuous Improvement enhancements and feature implementation
5. Proactive Application monitoring and preventive maintenance including RCA
6. Support Pega Software upgrades, Security patch and hot fix management
7. CI/CD – Test Automation and release Management
8. Bronze, Silver, and Gold Service Categories for customers to choose
9. Well-defined KPIs linked with actionable improvement levers
10. Continuous improvement and automation using Robotics and AI

Benefits

1. Proactive response to application issues, resource utilisation
2. To support availability and performance for guardrail- and license-compliant applications
3. Shared pool of resources driving efficiencies and cost reductions
4. Long-standing collaborative relationship with Pegasystems
5. Dashboards and reports to monitor KPIs, manage work and SLAs
6. Assess the overall health and readiness of application using PDC
7. Actively gathers, monitors, and analyses real-time performance and health indicators
8. Apply security patches and software upgrades timely
9. Work on minor enhancements to improve application quality
10. Saving of core development hours

Pega Cloud Support & Managed Services

Service Definition

OUR PERSPECTIVE

- We believe in optimising Pega managed services to ensure best-in-class support and continuous value delivery. By including improvements and enhancements, we reduce the risk of building huge technical backlogs and the argument over new functionality versus keeping up to date.
- We prioritise continuous value delivery and efficiency gains, ensuring that our support services deliver significant efficiencies and year-on-year productivity savings while maintaining operational stability ("keeping the lights on").

PURPOSE & OBJECTIVES

- Our primary purpose is to provide cost effective Pega managed services that leverage best-in-class tools, methodologies, and accelerators. The objective is to deliver continuous value and continuous improvement and lower the total cost of enhancing and managing applications on Pega Cloud.
- We engage collaboratively with clients to understand their unique requirements and challenges, tailoring our support services to address their specific needs and objectives.

OUR APPROACH

- We take a structured approach to ensuring that every aspect of our service aligns with our clients' strategic objectives, minimising risk and maximising value.
- We focus on three key areas: Application maintenance, Fixed capacity for enhancement, and Performance Management. Our approach emphasises proactive support and maintenance, including monitoring, troubleshooting, and performance tuning, to ensure the operational stability and reliability of Pega Cloud environments.
- We focus on continuous improvement, regularly reviewing and enhancing our support services to adapt to evolving client needs and industry best practices.

OUR CAPABILITIES

- On-demand pool of experienced resources and shared best practices from our own industry and technical experiences. The Technical Director oversees and governs all activities.
- Standardised Application checklists & quality guidelines. Clear incident management, investigation and resolution, including root cause analysis reporting/mitigation
- We utilise proactive monitoring and troubleshooting techniques to identify and resolve issues before they impact operational stability, ensuring continuous uptime and reliability.

OUR EXPERIENCE

- We have a proven track record of successful client engagements, delivering significant efficiency gains and productivity savings through our Pega cloud support and managed service.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
