How transformation happens

Marketing & advertising enablement

- Marketing analytics
- Commerce
- Content automation
- Content supply chain
- MarTech
- AdTech
- Personalisation
- Marketing operations

Technology & data excellence

- Enterprise data
- Digital products
- Scaled delivery
- AI value creation
- Agentic workflows
- Tech modernisation
- Service model innovation

Technology & Data Excellence

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

ENTERPRISE DATA STRATEGY & IMPLEMENTATION

Build a strategic data foundation that transforms information into competitive advantage and business growth.

DIGITAL PRODUCT STRATEGY & ENGINEERING

Accelerate digital innovation through modern methodologies, cloud-native architectures, and continuous delivery practices.

SCALED DELIVERY EXCELLENCE

Ensure successful implementations through comprehensive quality assurance, risk management, and delivery optimisation practices.

AI STRATEGY & VALUE REALISATION

Maximise your AI investments. Our strategies help you identify, implement, and scale AI initiatives for significant ROI across your enterprise.

AGENTIC WORKFLOW DESIGN

Leverage AI-powered autonomous systems that reduce operational costs, accelerate process cycle times, and eliminate manual bottlenecks.

TECHNOLOGY MODERNISATION

Transform legacy systems into modern, cloud-native platforms to drive business growth and innovation.

SERVICE MODEL INNOVATION

Transform traditional service delivery through digital-first customer experiences, operational redesign, and technology integration.

How Credera is different

Connected growth, powered by Omnicom

Marketing ambition and technical execution rarely align on their own, yet growth demands both. As Omnicom's transformation consultancy, we close that gap, turning data and ideas into competitive advantage so your brand can further connect, convert, and endure.

Tech and marketing, working as one

Broken customer experiences don't happen by accident; they begin backstage with disconnected people, processes, and tech. By aligning these from the start, we seal the cracks early, driving operational excellence so every interaction feels effortless and on-brand.

From proof of concept, to proof of value

Digital transformations collapse chasing quick wins or artificial intelligence (AI) pilots that never scale to impact. We help leaders deliver enterprise-ready AI and systems: trusted, governed, and human-centered. Our iterative approach accelerates outcomes while reducing risk and building trust.

Lasting change, built together

Too many transformations implode under complexity, fractured leadership, cost overruns, or ignored front-line input. At Credera, we don't hand over transformation; we co-create it. Together, we move strategy into action and deliver outcomes that land early and last.

Our Suite of Services

DATA & AI

- AI Industrialisation & Enterprise Deployment
- AI Maturity and Readiness Assessment
- AI-Enhanced Software Engineering
- Artificial Intelligence (AI) Acceleration & Prototyping
- Data Product Engineering & Delivery
- AWS Data Platform Engineering
- Azure Data Platform Engineering
- Cloud Data Transformation
- Data Platform Governance, Privacy & Ethics
- Data Analytics Transformation
- Data & Analytics Maturity Assessment
- Data Engineering & Pipeline Delivery
- Data Management Capability Assessment
- Data Mesh Architecture & Transformation
- Data Migration & Legacy Decommissioning
- Cloud Data Platform Design & Implementation
- Enterprise Data & Analytics Strategy
- Data Visualisation & BI Dashboards
- Data Warehouse & Lakehouse Modernisation
- GCP Data Platform Engineering
- Machine Learning Model (MLOPs) Development & Deployment
- Real-Time & Streaming Analytics Platform Development

DATA & AI

- Automated Pipeline Delivery & Operations (DataOps)
- Advanced Analytics Delivery & Insights
- Microsoft Fabric Data & Analytics Services
- AWS Data Zone & Lake Formation Services
- Enterprise Data Capability Review
- Customer & Marketing Data Strategy
- Artificial Intelligence Platform Development & Operations
- Agentic Workplace/Process Automation (AI & RPA)
- Artificial Intelligence (AI) Data Readiness & Governance
- Data & Analytics Operating Model Design
- AI Strategy & Advisory Services

SOFTWARE ENGINEERING

- Cloud Application Modernisation
- Cloud/ Platform Engineering & Secure Delivery
- IT Estate Assessment & Cloud Readiness Review
- Integration Architecture & API Platforms
- Solution Architecture Services
- Architecture Operating Model Design
- Architecture Governance & Assurance
- Low-Code Cloud Delivery
- Full-Stack Digital Product Engineering
- Site Reliability Engineering (SRE) Enablement
- Cloud-Native Software Engineering
- DevOps/DevSecOps Transformation & Enablement

CLOUD

- Cloud Architecture & Solution Design
- Cloud Well-Architected Review/Health Check (AWS, Azure, GCP)

Data Management Capability Assessment

Establish a strong data management foundation with our structured capability assessment. Using industry frameworks (DCAM, DAMA-DMBOK), we evaluate current maturity across governance, quality, and stewardship. We provide independent guidance, create actionable strategies, and deliver artefacts (policies, standards, frameworks) to support data management transformation and enable advanced analytics capabilities.

Features

1. Strategic Objectives and Governance Context Definition
2. Current State Data Management Capability Assessment
3. Key Performance Indicators and Success Metrics Development
4. Data Quality Standards and Framework Definition
5. Data Stewardship and Accountability Model Design
6. Master Data and Data Lineage Strategy
7. Data Classification, Risk, and Compliance Assessment
8. Governance Operating Model and Organisational Design
9. Target State Roadmap with Gap Analysis and Sequencing
10. Rapid Prototyping and Senior Sponsorship Engagement

Benefits

1. Align data management strategy with business goals and priorities
2. Benchmark maturity using industry frameworks and identify capability gaps
3. Define clear objectives and measures to track progress and outcomes
4. Create policies and standards for consistent data quality and governance
5. Establish clear roles, responsibilities, and accountability across organisation
6. Create unified data foundation and track data flow and origins
7. Identify data sensitivities, risks, and compliance requirements systematically
8. Structure governance function to support long-term capability maturity goals
9. Provide prioritised implementation roadmap with clear phases and timelines
10. Demonstrate value quickly and build executive support for transformation

Data Management Capability Assessment

Service Definition

OUR PERSPECTIVE

- Many organisations struggle to establish a clear data vision or effectively execute change through new ways of working and leveraging technology. Addressing these challenges is vital for optimising data management practices.
- Our service evaluates the 'health' of the organisations' data function, highlighting critical areas for improvement across people, processes, and technology to ensure effective data utilisation, management, and continuous improvement.

PURPOSE & OBJECTIVES

- Our purpose is to quantitatively assess the extent to which an organisation can utilise, manage, and improve its data capabilities. This assessment provides a foundation for strategic improvements and targeted interventions.
- We aim to guide organisations in developing a clear data vision, moving beyond merely upgrading technology to enhancing processes and cultural practices that support effective data management.
- Our objective is to offer detailed guidance on where to focus efforts across people, processes, and technology to optimise data functions and drive business value.

OUR APPROACH

- We provide tailored assessments, including the DCAM Data Management Capability Assessment for large organisations, to benchmark against industry peers and establish competitive standards.
- For smaller organisations, we conduct focused capability assessments. This includes comprehensive scoring and analysis to identify strengths and areas for improvement. This provides a fast-paced assessment of pockets of data management capability.
- Post-assessment, we can provide actionable insights and detailed roadmaps for addressing gaps, enhancing data processes, and aligning data strategy with overall business objectives.

OUR CAPABILITIES

- Led by our data management SMEs with extensive cross-industry experience, our reviews are conducted using a robust, industry-leading framework that ensures thorough and reliable assessments. Our consultants possess deep knowledge of common data issues and risks from business and IT perspectives, ensuring a holistic approach to data management reviews.
- We identify gaps and help implement strategic solutions that align with organisational goals and enhance overall data governance.

OUR EXPERIENCE

- Credera has successfully conducted data management capability reviews across various sectors, including the public sector, financial services, and energy, demonstrating our ability to deliver impactful assessments. For example, our review of a global asset management company identified key gaps within their data processes and provided a comprehensive roadmap for resolution, significantly enhancing their data management practices.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: ***Humility, Tenacity, Excellence, Integrity and People First***, which guide our every decision, underscoring our dedication to ethical business practices and client service.

Additional Service Information

PRICING

This service is priced in accordance with the rate card provided and can be modelled using a range of commercial approaches, e.g. time & materials, fixed price, risk/reward and velocity-based, etc. Please refer to our pricing document for more information.

ORDERING/ INVOICING

Unless otherwise agreed in the proposal, all fees associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING/ OFFBARDING

Credera's cloud support services can be ordered by contacting our team via the information given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins and outlined in the call-off contract/ order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offered under G-Cloud 15 are tailored to each call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

“

The power and weight of a strong consultancy with a perfect blend of team effort culture, embedded into the client organisation to drive successful outcomes.
