

InterSystems IRIS Data Platform

Pricing and Product Terms & Conditions – G-Cloud

Licenses

Licenses to the InterSystems IRIS product set forth below are offered via G-Cloud on an annual subscription basis (a “License”). A subscription License includes the right to use the software as well as InterSystems Software Update and Technical Assistance services.

Licenses acquired under the G-Cloud framework may only be used in the United Kingdom.

License Agreement

InterSystems IRIS products are made available pursuant to a license agreement (“License Agreement”), which incorporates license and support terms, the latest version of which can be found at <https://www.intersystems.com/end-user-license-terms>, and the InterSystems standard product terms and conditions for the InterSystems IRIS product being licensed (“Product Terms”). The scope of each License shall be specified in the License Agreement.
