TICKETSOLVE PRICING

Ticketsolve has a flexible approach when it comes to pricing options and is one of the best value options on the market. We believe in forging strong, open and collaborative relationships with our customers and we understand that our customers' needs are intricate and vary from organisation to organisation. We like to get to know you before sending any proposal and agreeing terms.

As such, we build our pricing plans around transparent single charges to fit your needs - with no additional costs or hidden fees. This ensures that costs are realistic and workable for your organisation, all teams can get the most out of Ticketsolve and our added benefits without worrying about additional charges and covers.

As such, before providing a price, we will ask for figures such as number of tickets sold last year, revenue from tickets sales, % of online sales etc, so that we can propose the most suitable percentage model for you.

Pricing breakdown

Indicative pricing is as follows - please note that these are a guide and we would work to find the best pricing solution for your organisation:

- ▶ Up to £400,000 - 2.5% commission
- ▶ £400,001 to £1,200,000 - 2% commission
- ▶ £1,200,001 to £2,400,000 - 1.5% commission
- ▶ Sales over £2,400,000 - 1% commission (Volume discounts are available)

We bill our customers monthly in arrears.
VAT does not apply to our UK customers
