

Welcome to Infoshare+

Infoshare+ is a UK data and software company aiming to make local public services seamless and connected with the communities they serve. We believe digital should be a shared environment, supporting consistency, efficiency, and better outcomes for all. With our platform of innovative digital solutions, we're a trusted partner to hundreds of public sector organisations across social housing, local government, and social care.

CONNECT Data Hub

One trusted view. Smarter decisions. Faster outcomes.

Connect Data Hub unifies disparate council datasets into a single, trusted intelligence layer. Using advanced matching, cleansing, and integration capabilities, it creates mastered resident and property views that improve data accuracy, streamline operations, strengthen governance, and support service transformation, fraud prevention, and evidence-based decision-making across the authority.

Why choose CONNECT?

Better data is the foundation of better public services.

Infoshare+ Connect Data Hub gives local authorities a single, reliable foundation for joined-up working. By unifying data across departments into mastered resident and property views, Connect reduces duplication and manual effort, strengthens data governance, and improves confidence in reporting. The result is faster insight, better collaboration, and evidence-led decisions that support service transformation, fraud prevention, and sustainable financial planning—without adding operational burden to already stretched teams.

Features

- Integrates data from multiple council systems
- Automated matching across people, properties, services
- Cleanses, standardises, and deduplicates records
- Creates mastered single resident or property views
- Supports batch, scheduled, and API data feeds
- Configurable rules and workflow automation
- Secure UK-based cloud hosting environment
- Modelling modules for taxation forecasting

Benefits

- Provides statistical, anonymous citizen data
- Reduces manual reconciliation and administrative effort
- Strengthens compliance and governance frameworks
- Supports digital transformation programmes
- Increases confidence in reporting and analytics
- Enhances cross-department collaboration
