

Welcome to Infoshare+

Infoshare+ is a UK data and software company aiming to make local public services seamless and connected with the communities they serve. We believe digital should be a shared environment, supporting consistency, efficiency, and better outcomes for all. With our platform of innovative digital solutions, we're a trusted partner to hundreds of public sector organisations across social housing, local government, and social care.

HousingIQ

Data-driven insight for smarter housing investment

HousingIQ is a cloud-based analytical platform that helps housing providers understand, plan and manage the energy performance, retrofit needs & investment requirements of housing stock. It combines data analysis, modelling and insight to support strategic decision making, regulatory reporting and delivery planning.

Why choose HousingIQ?

Real time data insight

A comprehensive, real-time view of portfolio energy performance, supporting evidence-based assessment, scenario testing & targeted improvement planning.

Housing stock prioritisation and efficiency

The platform identifies priority homes, highlights data gaps, and tracks measure performance, reducing duplicated effort and ensuring resources are targeted where they deliver greatest impact

Quality assured housing data

Planning and improvement planning calculation enables stock to be accurately profiled for fully costed improvement strategy.

Features

- Baseline energy and stock modelling
- RdSAP energy data retrieval
- Consistent asset data standardisation
- Costed improvement package generation
- Supports Band C EPC uplift and Net Zero modelling
- Assessment of retrofit readiness
- Long term investment planning
- Integrates with Pathway scenario tools
- Portfolio segmentation and prioritisation
- Exportable modelling outputs

Benefits

- Provides a single modelling baseline
- Shows clear costed routes to Band C or Net Zero
- Identifies cost effective upgrade solutions
- Supports evidence based funding applications
- Improves clarity on stock condition
- Enables whole portfolio prioritisation
- Reduces duplicated assessments
- Strengthens governance and reporting
- Supports audit and compliance evidence
- Improves long term strategic planning
