

Welcome to Infoshare+

Infoshare+ is a UK data and software company aiming to make local public services seamless and connected with the communities they serve. We believe digital should be a shared environment, supporting consistency, efficiency, and better outcomes for all. With our platform of innovative digital solutions, we're a trusted partner to hundreds of public sector organisations across social housing, local government, and social care.

AssetManager

Property asset management and capital accounting Features

AssetManager is a modular system supporting day-to-day asset management, capital accounting and reporting. It provides year-end rollover and budget year facilities, and a security module for granular access controls.

- Ensures financial compliance with CIPFA Code of Practice, including IFRS16
- Detailed lease information and property compliance modules
- 140+ ready-to-use reports, custom reporting, balance sheet and journals
- Modular design to tailor functionality
- Granular security and user-specific access controls

Why choose AssetManager?

Vastly reduces reliance on spreadsheets

Closing financial years using spreadsheets can introduce errors that lie undetected. AssetManager helps negate this potential threat to data integrity by following the CIPFA Code of Practice.

Over 140 reports

AssetManager produces consolidated balance sheets and journals to assist with the year-end process. Reports cover all modules and provide detailed insights into your data.

Property management modules

AssetManager provides one dependable solution, storing detailed information in its optional compliance modules, such as lease information, Water Hygiene, Condition Survey, Asbestos, and more!

Benefits

- Ensures financial compliance with local government accounting standards
- Improves audit readiness and simplifies record-keeping
- Enhances cross-department collaboration on financial and property data
- Provides quick insights with extensive reporting capabilities
- Scales with organisational requirements via modular options
- Supports better decision-making with detailed asset history
- Saves time on year-end processes
- Customisable user security
- UK-based support team assists onboarding and ongoing use
