

Welcome to Infoshare+

Infoshare+ is a UK data and software company aiming to make local public services seamless and connected with the communities they serve. We believe digital should be a shared environment, supporting consistency, efficiency, and better outcomes for all. With our platform of innovative digital solutions, we're a trusted partner to hundreds of public sector organisations across social housing, local government, and social care.

Stats+

Smarter benchmarking for better outcomes

Stats+ delivers clear, interactive Power BI dashboards that transform local government datasets into accessible insights. Combining Infoshare+ collected data with statutory national returns, the platform enables authorities to monitor performance, identify trends and make evidence-based decisions with ease.

Why choose Stats+?

Compare performance with confidence

Nearest-neighbour benchmarking allows meaningful comparison with similar organisations to highlight variation, improvement opportunities and collaboration potential.

Plan ahead with predictive insight

Machine-learning models analyse historical trends to forecast future demand and performance, supporting proactive planning and budget management.

Improve value for money

Built-in value-for-money tools benchmark service investment, helping identify efficiencies, cost-saving opportunities and areas for targeted improvement.

Features

- Compares authorities against one another and over time
- Sole providers of certain datasets e.g. Police, Fire, Pensions
- Analysis across multiple categories: revenue, capital, assets, resilience
- All service areas covered
- Nearest Neighbours model – a sector recognised set of comparators
- Dashboards continually developed to meet users needs
- Guidance from topic experts at CIPFA
- VfM Toolkit provides analysis of performance against cost

Benefits

- Independent, impartial analysis
- Utilises data authorities do not usually see
- Team on hand to prepare bespoke tables and charts
- Users participate in the development of the platform
- Unlimited users and usage
- Tables and visualisations for reporting
- Provides assessment of financial resilience of a council
- Provides sustainability assessment
- Unit costings enable accurate analysis of costliness
