

Welcome to Infoshare+

Infoshare+ is a UK data and software company aiming to make local public services seamless and connected with the communities they serve. We believe digital should be a shared environment, supporting consistency, efficiency, and better outcomes for all. With our platform of innovative digital solutions, we're a trusted partner to hundreds of public sector organisations across social housing, local government, and social care.

ClearCore Consent Management

Clear consent. Trusted engagement Features

Automatically manage citizen consent across all channels, creating a single view of permissions. ClearCore Consent Management ensures communications are compliant and consistent, while giving teams the confidence to engage citizens at the right time, in the right way.

Why choose ClearCore Consent Management?

Built for privacy and compliance at scale

ClearCore Consent Management centrally captures, reconciles and maintains consent preferences across people and channels, giving you a clear, complete view of permissions.

Strengthens trust and legal confidence

Transparent consent tracking and full audit trails support GDPR and privacy obligations, helping build trust with citizens while reducing regulatory risk.

Improves control and responsiveness

Customisable rules and instant updates ensure that preferences are respected across services, enabling real-time responses to access requests and communication choices.

- Full audit trail to demonstrate how conflicting consents are reconciled
- Siloed data combined to give a single view of consents
- Full reconciliation of citizen marketing permissions
- Incorporate and match to external third party data
- Maintains up-to-date data accuracy to capture changes, additions, deletions
- Built-in consent management rules
- Fully customisable rules and configuration for different types of consent

Benefits

- GDPR Compliance and protection from statutory fines
- Reputation management
- Reduction in operational costs
- Reduction in third party data costs
- Full transparency of citizen data with contact permissions
- Rapid interrogation across citizen data for a subject access request
- Supports Subject Access Request and GDPR and privacy legislation audit
- Maintains up-to-date accuracy to capture changes, additions, deletions
