Introduction to our Cloud Support Services

An Introduction to Baringa

Baringa Partners LLP is an award-winning management consultancy specialising in government, energy, financial services, utilities, telecoms and media, and consumer products. It partners with organisations when they are developing and delivering key elements of their business strategy, as well as working extensively with government and regulators providing policy and advisory services.

Baringa is recognised both in the UK and internationally for its unique culture for which it has been awarded a number of accolades.

This is why we stand out from the crowd

- ✓ **More 'geek' than generalist:** we are leading experts in our chosen disciplines
- ✓ **Small, senior team deployment:** we all have core industry experience and specialisms
- ✓ **Hands-on experience:** every client benefits from senior engagement
- ✓ **Double digit growth & Great Place To Work for the last decade:** we help our clients achieve the same
- ✓ **Flexible, not dogmatic:** our proven assets accelerate our clients' strategies
- ✓ **Partnership & collaboration:** we understand our clients' businesses inside-out
- ✓ **Bespoke, innovative solutions:** we use these to overcome any inefficiencies

Our Model	1 Partner : 10 Employees 	20+ Business Practices We are experts in our chosen fields and have deep industry knowledge and capabilities	8 Offices Worldwide 2,000+ employees and 130 Partners across the UK (1,550), Europe (250), USA (100), APAC (100)
For Our Consultants	Great Place To Work Voted top 10 'Great Places to Work' for 15 years running. This creates a highly motivated, engaged and passionate consulting team	Employee Engagement Our employee Net Promoter Score is the highest in the consulting industry, and it's in the top 5% of all businesses worldwide!	Talent Magnet As a result, we can attract, develop and retain the most talented consultants
For Our Clients	Reputation Built On Results Our results speak for themselves: over 80% of our work is referral, recommendation or repeat business	Client Engagement Our net promoter score from clients is in the top 5% across industry	Unique Experience Our clients tell us that they enjoy the distinctive experience of partnering with Baringa

An Introduction to Our Cloud Support Services

Our accomplished team helps UK-based and global organisations to implement technology change and run more effective technology-enabled businesses. We partner with organisations across different sectors to deliver value from their cloud programmes, providing strategic guidance and executing across strategy, enterprise data management & governance, data architecture, DevOps, data migration, data visualisation, reporting and Artificial Intelligence (AI) implementation.

We work across all major public cloud platforms including AWS, Azure and GCP to accelerate delivery of value for our clients alongside developing and hosting our own solutions. We're independent of specific cloud vendors and are experienced with designing, building and running cross- and multi-cloud solutions.

Our teams hold both architecture and engineering cloud accreditations across AWS, Azure and GCP, offering Cloud Support Services across a range of capabilities, alongside various accreditations in market leading insight generation tools.

In addition, we provide advisory and implementation services around various market-leading cloud software / platform as a service across data infrastructure, data management and data exploitation

Cloud Data Architecture and Engineering Services

Overview

Baringa's Cloud Data Architecture and Engineering Services partners with clients to establish scalable data architecture, engineering capabilities and platforms, leveraging Cloud and Agile techniques that will enable agility in delivery and operations securely and efficiently – with a focus on delivery of tangible business outcomes.

Key Service Features

Key service features of our Cloud Data

Architecture and Engineering Services are:

- Scalable cloud solutions adapting to changing needs
- Cloud-native and multi-cloud approaches
- Modular designs avoiding vendor lock-in
- Cloud Data Warehousing and Lakes handling of multiple data formats
- Data fabric and data mesh capabilities
- Cloud data pipelines integrating diverse sources
- Cloud analytics and real-time reporting architecture
- Productionisation of AI and Agentic AI
- Productionisation of GenAI using LLM and RAG
- Workflow and low-code application design and development
- Cloud Solution Design Delivery
- Client Capability Build
- Integrated cyber security, digital risk, and data privacy controls embedded throughout all data

architecture and engineering solutions.

- Workflow and low-code application design and development
- Tools used: AWS, Azure, GCP, Databricks, Python, PySpark, DevOps, Snowflake, Databricks, Kubernetes, Docker
- Cloud Expertise: Azure, AWS, GCP
- Languages: Python, JavaScript, TypeScript, Terraform
- Certifications: ISO27001:2022, Cyber Essentials Plus

Potential Service Benefits

Potential benefits of our Cloud Data Architecture and Engineering Services are:

- Accelerates decision-making through integrated reporting, analytics and AI
- Optimises cloud costs using Well-Architected Framework principles
- Enables agility with scalable cloud-native data architecture
- Reduces delivery time through agile engineering practices
- Enhances insights with advanced, scalable AI and ML capabilities
- Supports innovation via modernised data platforms and models
- Strengthens trust through embedded cyber security and data governance
- Builds long-term capability through client training and enablement
- Minimises disruption with seamless legacy system coexistence
- Improves outcomes using real-time analytics and cloud data pipelines
