Introduction to our Cloud Support Services

An Introduction to Baringa

Baringa Partners LLP is an award-winning management consultancy specialising in government, energy, financial services, utilities, telecoms and media, and consumer products. It partners with organisations when they are developing and delivering key elements of their business strategy, as well as working extensively with government and regulators providing policy and advisory services.

Baringa is recognised both in the UK and internationally for its unique culture for which it has been awarded a number of accolades.

An Introduction to Our Cloud Support Services

Our accomplished team helps UK-based and global organisations to implement technology change and run more effective technology-enabled businesses. We partner with organisations across different sectors to deliver value from their cloud programmes, providing strategic guidance and executing across strategy, enterprise data management & governance, data architecture, DevOps, data migration, data visualisation, reporting and Artificial Intelligence (AI) implementation.

We work across all major public cloud platforms including AWS, Azure and GCP to accelerate delivery of value for our clients alongside developing and hosting our own solutions. We're independent of specific cloud vendors and are experienced with designing, building and running cross- and multi-cloud solutions.

Our teams hold both architecture and engineering cloud accreditations across AWS, Azure and GCP, offering Cloud Support Services across a range of capabilities, alongside various accreditations in market leading insight generation tools.

In addition, we provide advisory and implementation services around various market-leading cloud software / platform as a service across data infrastructure, data management and data exploitation.

Cloud IT Strategy & Operating Model Advisory

Overview

Baringa's Cloud IT Strategy and Operating Model team partners with our clients to reset the role that IT plays in their organisations; adapting to change and adopting the latest trends and technologies. We act in a client-side advisory capacity, re-designing IT organisations to better delivery against the organisation's objectives, building internal capabilities with a realistic roadmap for the change. We embed cyber security, digital risk management, and data privacy controls throughout our Cloud IT strategy and operating model advisory, ensuring that technology transformation is resilient, compliant, and future-proofed. Our approach also leverages AI and automation, with robust cyber safeguards, to drive innovation and operational excellence.

Key Service Features

The key features of our Cloud IT Strategy & Operating Model Advisory services include:
