

HEMS Ops

G-Cloud 15 Service Definition

1.1. Summary

Our proven solution empowers emergency services to optimise their operational processes, ensuring readiness for any rapid response scenario. With HEMS Ops, streamline inventory management, enhance asset tracking, and facilitate smooth shift transitions. Manage assets across multiple locations with customisable checklists all while assessing operational preparedness with our live reporting dashboard.

2.1. Features

- Service Checklists: Ensure operational readiness with customisable service checklists.
- Stock Checklists: Streamline stock checks for efficient inventory management.
- Inventory & Equipment Tracking: Set minimum stock levels and receive expiry date alerts.
- Asset Management: Keep track of assets across multiple locations.

- Location Management: Manage bases effectively with centralised location data.
- Live Reporting Dashboard: Monitor operations in real-time with dynamic dashboards.
- Handover Notes: Seamlessly transfer information between shifts for smooth transitions.
- Shift Management: Organise shifts, tasks, and special events with ease.
- Medical Facility Listings: Facilitate faster decision making around patient handover by tagging facilities by speciality.
- Hospital Listings: Access a comprehensive directory of hospitals and contacts.

3.1. Technology

- Microsoft Power Apps: Effortlessly create and manage apps with low code.
- Secure Data: Your information stays safe within your environment.
- Seamless Integration: Connects smoothly with Microsoft services and third-party apps.
- Anytime, Anywhere Access: Stay productive on the go with multi-device compatibility

Why HEMS Ops?

Transform your Emergency Medical Services with our cutting-edge solution, developed alongside medical and operational experts from Helicopter Emergency Services. Say goodbye to fragmented data and manual processes hindering efficiency and situational awareness. Our digital solution, developed by experts, tackles daily challenges faced by HEMS operations. By implementing electronic and integrated processes, we empower your clinicians to focus on what truly matters – delivering high-value clinical care.

Experience greater accountability, transparency, and mobile visibility with HEMS Ops. Our solution eliminates the need for cumbersome physical documentation and labour-intensive manual tasks. Instead, it equips your team with real-time information on operational readiness, an invaluable audit trail of activities, and improves overall efficiency. Maximise the power of your data through enhanced database management and analytics, ensuring that your organisation operates at its peak potential. Join the ranks of HEMS operations revolutionising their processes and elevating patient care with HEMS Ops.
