1.2 Our Data & AI Capability

Sopra Steria's Data & AI Practice brings together advanced data engineering, analytics, and AI expertise to unlock value and accelerate transformation for our clients.

- Delivering comprehensive data and AI solutions, including strategy and advisory, data platform modernisation, advanced analytics, machine learning, generative AI and responsible AI implementation
- Integrating deep capability across data management, engineering, governance and AI technologies, supported by industrialised accelerators and frameworks to enable solutions across regulated, hybrid, and sovereign environments
- Using an end-to-end delivery model that combines business insight, engineering excellence, ethical AI principles, and robust governance—ensuring continuous innovation, trust, and measurable business outcomes throughout the full data and AI lifecycle.

* Source PAC 2024

PAC

Sopra Steria is formally recognised by **PAC** as one of **Europe’s leading providers of AI and Generative AI services**. In the **2024 PAC Innovation Radar for AI related Services in Europe**, Sopra Steria achieved a **"BestinClass" overall rating**, the highest classification awarded and achieved by only a small number of providers assessed. PAC evaluated 28 organisations across portfolio strength, vision, strategy, and client delivery.

PAC rated Sopra Steria **BestinClass** in several specialist AI domains, including **Generative AI, back office AI, and digital customer engagement**, and identified Sopra Steria as the **top rated provider in Europe for AI related services in Human Capital Management**. PAC further highlighted Sopra Steria’s commitment to **sovereign and trusted AI**, including data transparency, opensource approaches, regional hosting, and strong public sector delivery credentials across Europe.

TechMarketView

Sopra Steria is recognised by **TechMarketView** as a **Disruptor and Innovator** in the application of Artificial Intelligence to enterprise and backoffice operations. In its **AI Impact: Back Office Operations** research, TechMarketView identifies Sopra Steria among the suppliers using AI to **differentiate their value proposition and drive material change** across traditionally manual and process heavy functions.

TechMarketView research highlights Sopra Steria's use of **AI enabled automation, Generative AI, and industry specific solutions** to transform back office services, including HR, finance, and business process services. This recognition reflects Sopra Steria's ability to combine **deep industry knowledge, AI engineering capability, and partner ecosystems** to deliver tangible productivity gains and operational outcomes for clients.

By being named a **Disruptor and Innovator**, Sopra Steria is recognised by TechMarketView as a provider that is actively reshaping how organisations adopt and realise value from AI, rather than incrementally enhancing legacy service models.

NelsonHall

Sopra Steria is recognised as a **Leader** by **NelsonHall** in its **2025 NEAT assessment for "GenAI-Enabled Operational Transformation"**, including a Leader position in the **Overall** category. NelsonHall identifies Sopra Steria as a Leader for its ability to **industrialise Generative AI**, moving beyond pilots to deliver **secure, scalable, production ready GenAI solutions** that generate measurable operational outcomes. Sopra Steria is rated as a Leader across multiple categories, including:

- GenAI-Enabled Operational Transformation (Overall)
- Development of custom GenAI solutions
- GenAI support for Business Process Services
- Understanding and aligning GenAI to operational requirements

NelsonHall highlights Sopra Steria's **impact driven AI strategy**, including the establishment of AI factories for largescale deployment, integration of industry specific GenAI solutions, and the rapid delivery of operational value for public and private sector clients.

2 Service Overview

2.1 Service Description

Our Data Maturity Assessment provide insight into your organisation's data-driven transformation journey, capturing business drivers and delivering an evidence-based maturity assessment, prioritised digital-data solutions and an actionable roadmap. Our approach considers people (culture, organisation, skills), process (controls and governance) and technology (tools and architecture). Readiness for AI tooling is a key output of our Data Maturity Assessment, ensuring strong foundations for future initiatives.

2.2 Features

- A coherent articulation of the drivers for Data-Driven Transformation
- A people-centric approach, considering people/culture, process and technology
- Structured data maturity assessment tool
- Comprehensive evidenced based analysis and report
- Prioritised actionable transformation plan
- Gap analysis between current and desired state
- Structured interviews, surveys and analysis
- A prioritised and scoped set of solutions
- Considers ethical dimensions of data maturity (e.g. privacy and transparency)

2.3 Benefits

- Data Maturity Assessment and key findings
- Detailed as-is analysis with strengths and weaknesses
- Best Practice and Recommendations with action plan
- Baseline for year-to-year improvement
- Benchmark against peers
- Focused on growth and development
- Multidisciplinary - Involves all business stakeholders
- Tightly coupled to your specific context
- Novel ideas and innovative approach linked to problem solving
- Supports organisational sustainability objectives

2.4 Our Approach

Our Data Maturity Assessment provides a comprehensive view of your organisation's data-driven transformation journey. We begin by articulating the key drivers for transformation and engaging stakeholders across the business through structured interviews, surveys, and workshops. Our people-centric approach considers culture, organisation, skills, processes, governance, tools, and technology.

Using a structured maturity assessment tool, we conduct an evidence-based analysis of your current state,

identifying strengths, weaknesses, and gaps between where you are and where you want to be. We benchmark your organisation against industry best practice and peers, considering ethical dimensions such as privacy and transparency. The result is a prioritised, actionable transformation plan and a clear roadmap for growth, development, and sustainability.

2.5 Inputs

We would expect the following inputs from you as part of this service:

- Access to relevant business and data assets
- Details of current data management processes
- Business objectives and transformation goals
- Stakeholder availability for interviews, surveys, and workshops
- Organisational structure, culture, and skills information
- Compliance and regulatory requirements
- Existing technology landscape and architecture
- Information on current data quality and governance practices
- User feedback on digital and data challenges
- Security and privacy policies

This is a high-level list and is not exhaustive.

2.6 Outputs & Deliverables

Some of the outputs and deliverables generated from the service are identified below:

- Data Maturity Assessment report
- Key findings and gap analysis
- Benchmarking against industry best practice and peers
- Prioritised, actionable transformation plan
- Strategic roadmap for digital and data-driven growth
- Stakeholder workshop materials and summary findings
- Recommendations for process, technology, and skills improvement
- Baseline for year-on-year improvement
- Ethical data management guidelines
- Continuous improvement recommendations for data maturity

This is a high-level list and is not exhaustive.

2.7 Certifications & Skills

Some of our certifications and skills related to this service are identified below:

- AWS and Azure certified partner with individual certifications across architecture, development, AI and security
- Cyber Essentials Plus certified

- Cloud Architecture
- Cloud Solution Engineering
- Application Architecture
- Application Development
- AI Architecture, development, training and prompt engineering
- Data science
- DevSecOps
- Scrum, Kanban and Prince2 practitioner certification
- Business Advisory
- Business & Data analysts
- Business Change
- User experience and service design

This is a high-level list and is not exhaustive.

3 Pricing

Please refer to the Pricing Document for this Service.

4 Next Steps

4.1 Contact

Please contact us if you would like to know more about any of our listings on G-Cloud.

Email: sector-support@soprasteria.com

As all of our G-Cloud enquiries initially come into a single contact, please remember to tell us:

- Your name, your organisation name and contact details
- Which service you are enquiring about
- A brief summary of your requirements or problem statements that you would like support to address.

4.2 More Information

More information about our services and capabilities can be found on our website [here](#).
