1 About Sopra Steria

1.1 Overview

About Sopra Steria

Sopra Steria, a major Tech player in Europe with 50,000 employees in nearly 30 countries, is recognised for its consulting, digital services and solutions. It helps its clients drive their digital transformation and obtain tangible and sustainable benefits. The Group provides end-to-end solutions to make large companies and organisations more competitive by combining in-depth knowledge of a wide range of business sectors and innovative technologies with a collaborative approach. Sopra Steria places people at the heart of everything it does and is committed to putting digital to work for its clients in order to build a positive future for all. In 2024, the Group generated revenues of €5.8 billion.

The world is how we shape it

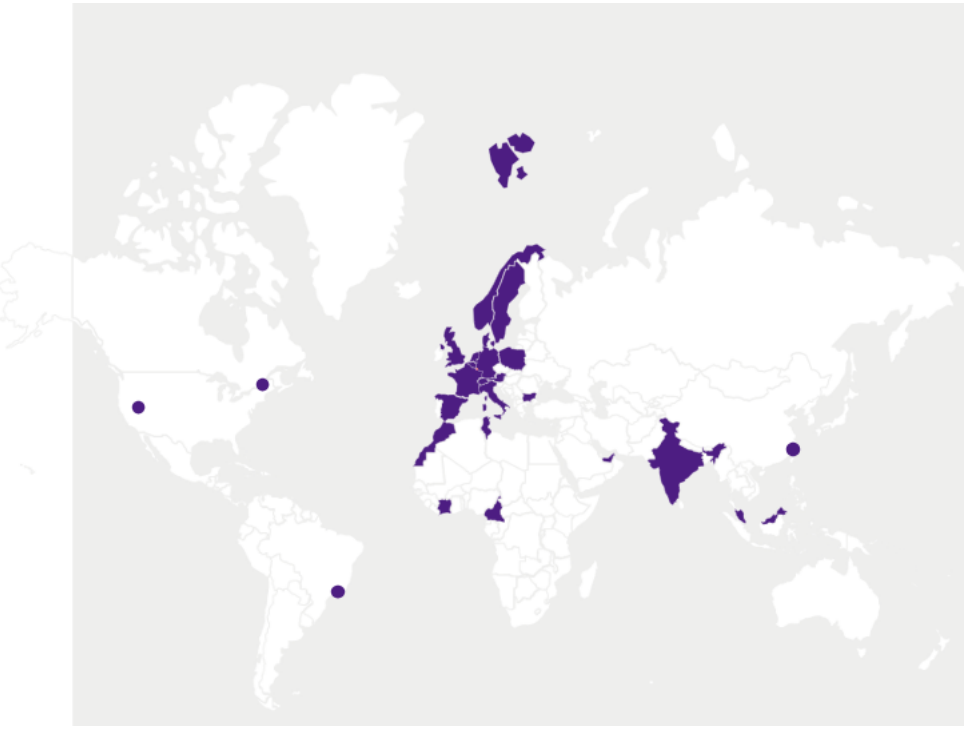

Sopra Steria (SOP) is listed on Euronext Paris (Compartment A) – ISIN: FR0000050809 For more information, visit us at www.soprasteria.com

1.2 Our Cloud Capability

Sopra Steria Cloud Practice brings together leading digital, cloud and engineering expertise to accelerate transformation for our clients.

- Delivering comprehensive digital and cloud transformation, including strategic consulting, change management, large-scale migration, application modernisation, next-generation development and secure, optimised operations
- Integrating deep capability across applications, data, infrastructure, cloud platforms and security, supported by industrialised assets to enable solutions across Private, Public, Hybrid and Sovereign Cloud environments
- Using an end-to-end cloud delivery model that integrates business, engineering, security and operations, ensuring continuous innovation, strong governance, and measurable business value throughout the full cloud lifecycle.

1.3 Our Credentials

Capacity

More than 15,000 cloud experts in 30 countries (Vision, Ops, Design, Scale)

Market recognitions

- **Large account** (best category>$250m) **in the "Public Sector Industry Cloud Landscape"** (Forrester)
- **Leader "Cloud public in Europe" & " Next Gen Private & Hybrid Cloud"** (ISG)
- **Leader "Cloud Infra Brokerage"** (NelsonHall)
- **Best in Class "Azure" & "SAP" & "Service Now"** (PAC Radar)
- **Leader "Cloud Native Application" & "Application Transformation Services"** (Quadrant)
- **Major Contender "Cloud Services" & "Cloud Native Applications" & "Services on AWS Azure & CGP"** (Everest)

Key partners

NumSpot, Google Cloud, Oracle Cloud, IBM Cloud, Scaleway, vmware, aws, Microsoft Azure, Visa, OVHcloud, redhat, OUTSCALE

Main market recognitions

2nd in IT Services in France and 10th in EMEA*

Cybersecurity	Digital	AI	IT for Green	Cloud
• **Leader "Cyber resiliency services"** (NelsonHall) • **Leader "cybersecurity" in France & Germany** (ISG) • **Top 5 "cybersecurity" in France** (Markess)	• **Leader "Application Transformation Services"** (Quadrant) • **Leader "Digital Banking"** (NelsonHall) • **Leader "Digital Banking Services"** (ISG) • **Major Contender "Digital twin Services"** (Everest) • **Innovator "Digital Manufacturing"** (NelsonHall)	• **Leader AI Services & Gen AI** (PAC Innovation Radar) • **Leader AI Services** (Quadrant) • **Leader "Intelligence Process Automation"** (Quadrant) • **Major player "European Professional Services for Data-Drive"** (IDC) • **Major contenders "AI services" & "Intelligent Process Automation services"** (Everest)	• **Leader "ESG for Banking Services"** (NelsonHall) • **Best in class "consulting and digital services for sustainable development"** (PAC Innovation Radar) • **Major Contender "NetZero Consulting Services"** (Everest)	• **Large account (best category>$250m) in the "Public Sector Industry Cloud Landscape"** (Forrester) • **Leader "Cloud Infra Brokerage"** (NelsonHall) • **Best in Class "Azure" & "SAP" & "Service Now"** (PAC Radar) • **Leader "Cloud Native Application" & "Application Transformation Services"** (Quadrant) • **Leader "Cloud public in Europe" & " Next Gen Private & Hybrid Cloud"** (ISG) • **Major Contender "Cloud Services" &"Cloud Native Applications" & "Services on AWS Azure & CGP"** (Everest)

2 Service Overview

2.1 Service Description

Our Azure Landing Zone Design and Implementation service supports organisations to design and establish a secure, scalable, and governed Azure foundation. We align landing zones with Microsoft best practices to enable consistent cloud operations, secure workload onboarding, and long-term platform support across multiple environments

2.2 Features

- Design of Azure Landing Zone aligned to Microsoft CAF
- Subscription and management group structure design
- Identity, access, and RBAC model definition
- Network topology design, including hub-and-spoke and vWAN
- Security baseline and policy enablement
- Governance, policy, and compliance alignment
- Logging, monitoring, and management configuration
- Connectivity design for hybrid and multi-region environments
- Automation and Infrastructure as Code enablement
- Knowledge transfer and operational readiness support

2.3 Benefits

- Consistent and repeatable Azure environment deployments
- Improved security posture through standardised controls
- Reduced operational risk and configuration drift
- Faster and safer onboarding of cloud workloads
- Clear governance and compliance alignment
- Scalable foundation supporting future growth
- Improved visibility and control across Azure environments
- Reduced support and operational overhead
- Alignment with Azure best practices and standards
- Enhanced readiness for enterprise cloud adoption

2.4 Our Approach

We take a structured and collaborative approach aligned to Azure best practices and Cloud Support principles. We begin by understanding organisational requirements, governance needs, and operational constraints. Using the Microsoft Cloud Adoption Framework, we design a landing zone architecture that supports security, scalability, and operational consistency.

We support the implementation of core platform components including identity, networking, security, governance, and monitoring. Automation and Infrastructure as Code are used to ensure repeatability and reduce risk. Throughout delivery, we focus on operational readiness, documentation, and knowledge transfer to enable effective transition into business-as-usual cloud operations.

2.5 Inputs

We would expect the following inputs from you as part of this service:

- Organisational cloud objectives and governance requirements
- Azure tenant and subscription information
- Identity and access management requirements
- Network and connectivity requirements
- Security, compliance, and regulatory considerations

This is a high-level list and is not exhaustive. If you cannot provide all of these inputs, then we can discuss altering our approach to accommodate your situation.

2.6 Outputs & Deliverables

Some of the outputs and deliverables generated from the service are identified below:

- Azure Landing Zone architecture design
- Subscription, management group, and governance model
- Network, identity, and security configuration documentation
- Implemented Azure Landing Zone aligned to best practices
- Operational documentation and support handover materials
- Knowledge transfer sessions for operational teams

This is a high-level list and is not exhaustive.

2.7 Certifications & Skills

Some of our certifications and skills related to this service are identified below:

- Microsoft Azure Solutions Architect Expert
- Microsoft Azure DevOps Engineer Expert
- Microsoft Azure Security Engineer Associate
- Microsoft Azure AI Engineer Associate
- Microsoft Azure Data Scientist Associate
- Microsoft Database Administrator Associate
- Microsoft Azure Administrator Associate
- Microsoft Developer Associate
- Microsoft Azure Network Engineer Associate

This is a high-level list and is not exhaustive.

3 Pricing

Please refer to the Pricing Document for this Service.

4 Next Steps

4.1 Contact

Please contact us if you would like to know more about any of our listings on G-Cloud.

Email: sector-support@soprasteria.com

As all of our G-Cloud enquiries initially come into a single contact, please remember to tell us:

- Your name, your organisation name and contact details
- Which service you are enquiring about
- A brief summary of your requirements or problem statements that you would like support to address.

4.2 More Information

More information about our services and capabilities can be found on our website here.
