1.2 Our Data & AI Capability

Sopra Steria's Data & AI Practice brings together advanced data engineering, analytics, and AI expertise to unlock value and accelerate transformation for our clients.

- Delivering comprehensive data and AI solutions, including strategy and advisory, data platform modernisation, advanced analytics, machine learning, generative AI and responsible AI implementation
- Integrating deep capability across data management, engineering, governance and AI technologies, supported by industrialised accelerators and frameworks to enable solutions across regulated, hybrid, and sovereign environments
- Using an end-to-end delivery model that combines business insight, engineering excellence, ethical AI principles, and robust governance—ensuring continuous innovation, trust, and measurable business outcomes throughout the full data and AI lifecycle.

1.3 Our Credentials

Capacity

More than 15,000 cloud experts in 30 countries
(Vision, Ops, Design, Scale)

Market recognitions

- Large account (best category>\$250m) in the "Public Sector Industry Cloud Landscape" (Forrester)
- Leader "Cloud public in Europe" & "Next Gen Private & Hybrid Cloud" (ISG)
- Leader "Cloud Infra Brokerage" (NelsonHall)
- Best in Class "Azure" & "SAP" & "Service Now" (PAC Radar)
- Leader "Cloud Native Application" & "Application Transformation Services" (Quadrant)
- Major Contender "Cloud Services" & "Cloud Native Applications" & "Services on AWS Azure & CGP" (Everest)

Key partners

Main market recognitions

2nd in IT Services in France and 10th in EMEA*

Cybersecurity	Digital	AI	IT for Green	Cloud			
• Leader "Cyber resiliency services" (NelsonHall) • Leader "cybersecurity" in France & Germany (ISG) • Top 5 "cybersecurity" in France (Markess)	• Leader "Application Transformation Services" (Quadrant) • Leader "Digital Banking" (NelsonHall) • Leader "Digital Banking Services" (ISG) • Major Contender "Digital twin Services" (Everest) • Innovator "Digital Manufacturing" (NelsonHall)	• Leader AI Services & Gen AI (PAC Innovation Radar) • Leader AI Services (Quadrant) • Leader "Intelligence Process Automation" (Quadrant) • Major player "European Professional Services for Data-Drive" (IDC) • Major contenders "AI services" & "Intelligent Process Automation services" (Everest)	• Leader "ESG for Banking Services" (NelsonHall) • Best in class "consulting and digital services for sustainable development" (PAC Innovation Radar) • Major Contender "NetZero Consulting Services" (Everest)	• Large account (best category>\$250m) in the "Public Sector Industry Cloud Landscape" (Forrester) • Leader "Cloud Infra Brokerage" (NelsonHall) • Best in Class "Azure" & "SAP" & "Service Now" (PAC Radar) • Leader "Cloud Native Application" & "Application Transformation Services" (Quadrant) • Leader "Cloud public in Europe" & "Next Gen Private & Hybrid Cloud" (ISG) • Major Contender "Cloud Services" & "Cloud Native Applications" & "Services on AWS Azure & CGP" (Everest)			
							

* Source PAC 2024

PAC

Sopra Steria is formally recognised by **PAC** as one of **Europe’s leading providers of AI and Generative AI services**. In the **2024 PAC Innovation Radar for AI related Services in Europe**, Sopra Steria achieved a **"BestinClass" overall rating**, the highest classification awarded and achieved by only a small number of providers assessed. PAC evaluated 28 organisations across portfolio strength, vision, strategy, and client delivery.

PAC rated Sopra Steria **BestinClass** in several specialist AI domains, including **Generative AI, back office AI, and digital customer engagement**, and identified Sopra Steria as the **top rated provider in Europe for AI related services in Human Capital Management**. PAC further highlighted Sopra Steria’s commitment to **sovereign and trusted AI**, including data transparency, opensource approaches, regional hosting, and strong public sector delivery credentials across Europe.

TechMarketView

Sopra Steria is recognised by **TechMarketView** as a **Disruptor and Innovator** in the application of Artificial Intelligence to enterprise and backoffice operations. In its **AI Impact: Back Office Operations** research, TechMarketView identifies Sopra Steria among the suppliers using AI to **differentiate their value proposition and drive material change** across traditionally manual and process heavy functions.

TechMarketView research highlights Sopra Steria's use of **AI enabled automation, Generative AI, and industry specific solutions** to transform back office services, including HR, finance, and business process services. This recognition reflects Sopra Steria's ability to combine **deep industry knowledge, AI engineering capability, and partner ecosystems** to deliver tangible productivity gains and operational outcomes for clients.

By being named a **Disruptor and Innovator**, Sopra Steria is recognised by TechMarketView as a provider that is actively reshaping how organisations adopt and realise value from AI, rather than incrementally enhancing legacy service models.

NelsonHall

Sopra Steria is recognised as a **Leader** by **NelsonHall** in its **2025 NEAT assessment for "GenAI-Enabled Operational Transformation"**, including a Leader position in the **Overall** category. NelsonHall identifies Sopra Steria as a Leader for its ability to **industrialise Generative AI**, moving beyond pilots to deliver **secure, scalable, production ready GenAI solutions** that generate measurable operational outcomes. Sopra Steria is rated as a Leader across multiple categories, including:

- GenAI-Enabled Operational Transformation (Overall)
- Development of custom GenAI solutions
- GenAI support for Business Process Services
- Understanding and aligning GenAI to operational requirements

NelsonHall highlights Sopra Steria's **impact driven AI strategy**, including the establishment of AI factories for largescale deployment, integration of industry specific GenAI solutions, and the rapid delivery of operational value for public and private sector clients.

2 Service Overview

2.1 Service Description

Our Data Reporting & Visualisation service transforms raw data into actionable insights through visually compelling reports and dashboards. Using leading BI platforms such as Power BI and Tableau, we enable organisations to make informed decisions quickly and confidently through intuitive, user-centred visualisations.

2.2 Features

- People-centred design using agile, Lean-based delivery approach
- Custom visualisations for management reporting and anomaly detection
- KPI and performance dashboards to track organisational progress
- Power BI and Tableau solution architecture with security and compliance embedded
- Batch and streaming data solutions for real-time insights
- Flexible deployment: on-premises, cloud, hybrid, and edge environments
- Integration with multiple data sources for unified reporting
- Advanced analytics embedded into dashboards for predictive insights
- Role-specific dashboards tailored to business needs
- People development and training courses for Power BI and Tableau adoption

2.3 Benefits

- Support data-driven decisions across all organisational levels
- Enable self-service analytics and data exploration capabilities
- Deliver role-specific dashboards and actionable visualisations
- Use data to identify and resolve business problems
- Provide quick access to useful and actionable information
- Convey complex data through simple, intuitive visual representation
- Democratise data access for improved organisational transparency
- Enhance ethical practices by improving visibility and accountability
- Reduce decision-making time through real-time reporting
- Improve operational efficiency with automated reporting processes

2.4 Our Approach

Our approach to Data Reporting & Visualisation focuses on creating intuitive, impactful insights that empower organisations to make evidence-based decisions. We combine user-centred design principles, Power BI and Tableau expertise, and advanced analytics to deliver dashboards and reports that are secure, scalable, and aligned with business objectives.

We apply structured methodologies for data modelling, integration, and visualisation, embedding compliance and governance throughout. Our consultants leverage proven frameworks and accelerators to ensure rapid delivery,

while enabling self-service capabilities for long-term sustainability.

Stakeholder engagement and training are central to our approach, ensuring adoption and continuous improvement.

2.5 Inputs

We would expect the following inputs from you as part of this service:

- Access to relevant datasets
- Business objectives and KPIs
- Existing technology landscape details
- Stakeholder availability for workshops
- Compliance and regulatory requirements
- Current AI initiatives and pain points

This is a high-level list and is not exhaustive.

2.6 Outputs & Deliverables

Some of the outputs and deliverables generated from the service are identified below:

- Custom dashboards and visualisation reports in Power BI and Tableau
- Power BI and Tableau solution architecture and integration plan
- KPI and performance tracking dashboards
- Data modelling and governance documentation
- Training materials and enablement sessions
- Recommendations for Power BI and Tableau optimisation

This is a high-level list and is not exhaustive.

2.7 Certifications & Skills

Some of our certifications and skills related to this service are identified below:

- AWS and Azure certified partner with individual certifications across architecture, development, AI and security
- Cyber Essentials Plus certified
- Cloud Architecture
- Cloud Solution Engineering
- Application Architecture
- Application Development
- AI Architecture, development, training and prompt engineering
- Data science
- DevSecOps
- Scrum, Kanban and Prince2 practitioner certification
- Business Advisory

- Business & Data analysts
- Business Change
- User experience and service design

This is a high-level list and is not exhaustive.

3 Pricing

Please refer to the Pricing Document for this Service.

4 Next Steps

4.1 Contact

Please contact us if you would like to know more about any of our listings on G-Cloud.

Email: sector-support@soprasteria.com

As all of our G-Cloud enquiries initially come into a single contact, please remember to tell us:

- Your name, your organisation name and contact details
- Which service you are enquiring about
- A brief summary of your requirements or problem statements that you would like support to address.

4.2 More Information

More information about our services and capabilities can be found on our website [here](#).
