2 Service Overview

2.1 Service Description

Our Copilot Studio Readiness, Design, and Implementation service helps organisations assess readiness, design governance, and implement Copilot Studio solutions securely. We ensure data protection, identity controls, and operational alignment before enabling AI-powered automation.

2.2 Features

- Copilot readiness assessment
- Data and security risk review
- Identity and access alignment
- Governance and usage design
- Copilot Studio architecture design
- Prompt and capability design support
- Controlled implementation support
- Environment and role configuration
- Operational readiness guidance
- Knowledge transfer

2.3 Benefits

- Reduced AI and data risk
- Secure Copilot adoption
- Clear governance and ownership
- Better quality AI outputs
- Controlled rollout of AI capabilities
- Improved user confidence
- Compliance-aligned implementation
- Scalable Copilot foundation
- Reduced misuse and sprawl
- Faster safe adoption of AI

2.4 Our Approach

We assess organisational readiness, define governance and security controls, design Copilot Studio environments, and support controlled implementation aligned to Microsoft best practices.

2.5 Inputs

We would expect the following inputs from you as part of this service:

- Microsoft 365 tenant access
- Data and security requirements

- AI usage objectives

This is a high-level list and is not exhaustive. If you cannot provide all of these inputs, then we can discuss altering our approach to accommodate your situation.

2.6 Outputs & Deliverables

Some of the outputs and deliverables generated from the service are identified below:

- Copilot readiness assessment
- Governance and security design
- Configured Copilot Studio environment
- Operational guidance and documentation

This is a high-level list and is not exhaustive.

2.7 Certifications & Skills

Some of our certifications and skills related to this service are identified below:

- Microsoft Azure Solutions Architect Expert
- Microsoft Azure DevOps Engineer Expert
- Microsoft Azure Security Engineer Associate
- Microsoft Azure AI Engineer Associate
- Microsoft Azure Data Scientist Associate
- Microsoft Database Administrator Associate
- Microsoft Azure Administrator Associate
- Microsoft Developer Associate
- Microsoft Azure Network Engineer Associate
- Microsoft Azure Virtual Desktop Specialty

This is a high-level list and is not exhaustive.

3 Pricing

Please refer to the Pricing Document for this Service.

4 Next Steps

4.1 Contact

Please contact us if you would like to know more about any of our listings on G-Cloud.

Email: sector-support@soprasteria.com

As all of our G-Cloud enquiries initially come into a single contact, please remember to tell us:

- Your name, your organisation name and contact details

- Which service you are enquiring about
- A brief summary of your requirements or problem statements that you would like support to address.

4.2 More Information

More information about our services and capabilities can be found on our website [here](#).
