Overview of Pricing

Insource – data management experts to healthcare

Harness the power of your disparate data, extract intelligence, make confident decisions and streamline operational processes that improve healthcare delivery.

Insource helps you drive better patient outcomes, streamline operational efficiency, and extract essential insight by ensuring all your foundational data is accessible for decision making – despite your legacy infrastructure. This powerful foundation enables informed trust-wide management, ICS insight and control, and partner solutions innovation.

We provide both operational management solutions and an advanced data management platform, that delivers a single version of the truth, to give you the full power of data in your organisation.

***Due to the variable nature of customer projects, an initial scoping phase will be required to obtain information relating to specific customer requirements.*

***Information obtained during scoping phase will be used to price all variable and optional components.*

Above prices are per annum

1.2 Variable Price

Due to the variable nature of implementation projects for individual customer requirements and operating procedures, we do not provide a standard fee for these services, and therefore implementation costs are not included within the pricing document. An initial Scoping Exercise will be carried out to obtain information relating to individual customer requirements. Only after the Scoping has taken place can a definitive price be agreed on any variable components. All pricing will be as per the rate card below.
