PRICING OVERVIEW

- RoadsOnline modules are licensed individually on an annual subscription basis.
- Base license fees include set-up, configuration, training, ongoing support, and access to product maintenance updates.
- Licenses are renewable annually.
- Usage-based **multipliers** apply where specified.
- A 20% discount on base license fees applies where multiple modules are purchased.
- Usage-based charges and bespoke development are excluded from discounts.
- All prices are exclusive of VAT.

MULTI-MODULE DISCOUNT

Where two or more modules are purchased at the same time, a 20% discount is applied to the base license fee of all modules purchased. Where modules are purchased at different times, the discount applies only to additional modules. Discounts apply to base license fees only.

USAGE LEEWAY

To avoid mid-year invoicing minor fluctuations in usage volumes, a usage leeway of up to 15% above the agreed annual usage level is permitted within each license period.

Where actual usage remains within this 15% leeway, no additional charges will be applied during the license year. Actual usage will be reviewed at renewal and used to inform the following year's license calculation.

Where usage exceeds the 15% leeway, an additional usage charge will apply to cover the increased licensed volume for the remainder of the license period.

CUSTOM DEVELOPMENT

Any bespoke development beyond standard configuration is charged at £1050 per day plus VAT.

A detailed statement of work will be provided prior to commencement.

TTRO (TEMPORARY TRAFFIC REGULATION ORDERS)

Base Annual License Fee

£6,600 per annum

What's Included

The annual license fee includes set-up, configuration, training, ongoing support, and access to product maintenance updates throughout the license period. Licenses are renewable annually.

Usage-Based Pricing

Additional costs are calculated based on the annual volume of orders or notices processed.

The volume of orders / notices can vary in subsequent years.

Metric	Unit	Cost
Number of Orders / Notices	Per 100	£1,320

WINTER MAINTENANCE

Base Annual License Fee

£11,000 per annum

What's Included

The annual license fee includes set-up, configuration, training, ongoing support, and access to product maintenance updates throughout the license period. Licenses are renewable annually.

Usage-Based Pricing

Additional costs are calculated based on the number of gritters used within the Local Authority.

The number of gritters can vary in subsequent years.

Metric	Unit Cost
Number of Gritters	£110

TRAFFIC SIGNAL PERMITS

Base Annual License Fee

£4,400 per annum

What's Included

The annual license fee includes set-up, configuration, training, ongoing support, and access to product maintenance updates throughout the license period. Licenses are renewable annually.

Usage-Based Pricing

Additional costs are calculated based on the annual volume of permits processed.

The number of permits can vary in subsequent years.

Metric	Unit	Cost
Number of Permits (up to 3,000 per annum)	Per 100	£660
Number of Permits (over 3,000 per annum)	Per 100	£440

CRITICAL INCIDENTS

Base Annual License Fee

£5,500 per annum

What's Included

The annual license fee includes set-up, configuration, training, ongoing support, and access to product maintenance updates throughout the license period. Licenses are renewable annually.

DRIVERS PERMITS

Base Annual License Fee

£4,400 per annum

What's Included

The annual license fee includes set-up, configuration, training, ongoing support, and access to product maintenance updates throughout the license period. Licenses are renewable annually.

Usage-Based Pricing

Additional costs are calculated based on the annual number of drivers.

The number of drivers can vary in subsequent years.

Metric	Unit	Cost
Number of Drivers	Per 100	£1,100

WORKED EXAMPLES (ILLUSTRATIVE ONLY)

TTRO

700 Orders per year

Base license: £6,600

Usage: $(700 \div 100) \times £1,320 = £9,240$

Total annual cost: £15,840 plus VAT

Winter Maintenance

15 Gritters

Base license: £11,000

Usage: $15 \times £110 = £1,650$

Total annual cost: £12,650 plus VAT

Traffic Signal Permits

1,000 Permits per year

Base license: £4,400

Usage: $(1,000 \div 100) \times £660 = £6,600$

Total annual cost: £11,000 plus VAT

Critical Incidents

Base license: £5,500

Total annual cost: £5,500 plus VAT

Drivers Permits

500 Drivers per year

Base license: £4,400

Usage: $(500 \div 100) \times £1,100 = £5,500$

Total annual cost: £9,900 plus VAT

Multi-Module Purchase Example

(TTRO and Winter Maintenance purchased at the same time)

TTRO base license: $£6,600 - 20\% = £5,280$

Winter Maintenance base license: $£11,000 - 20\% = £8,800$

Total base license costs: £14,080

(Usage-based charges calculated separately)
