Introduction

Jadu recognises the pivotal role of technology in public-service delivery. We specialise in providing strategic technology road-mapping and advisory services to help organisations navigate the rapidly evolving technology landscape. We work closely with customers to develop tailored strategies that align technology investments with business goals and deliver tangible benefits.

Services Offered

- Assess current technology landscape including infrastructure, application, and digital capabilities.
- Identify strengths, weaknesses, opportunities, and threats for roadmap development.
- Collaborate to define vision and objectives aligned with business priorities.
- Develop roadmap with milestones and investments mapped to strategic goals.
- Identify relevant emerging technologies and trends for business objectives.
- Assess impact, feasibility, and risks of adopting new technologies.
- Evaluate vendors based on scalability, integration, and organisation's requirements.
- Offer guidance on selecting technology partners and solutions effectively.
- Provide ongoing oversight, guidance, and support throughout roadmap implementation.
- Monitor progress, mitigate risks, and ensure alignment with objectives.

Benefits

- Ensure alignment of technology investments with business priorities and objectives.
- Evaluate emerging technologies to stay ahead changing technology landscape.
- Minimise risks associated with technology adoption and implementation processes.
- Optimise technology investments by selecting the most suitable, cost-effective solutions.
- Reduce technology risks and complexity through informed decision-making and strategic planning.
- Increase agility and adaptability to changing business and technology trends.
- Leverage public-sector insights for technology, digital innovation and data.
- Improve governance ensuring technology roadmap alignment with business objectives.
- Tailored approach to meet the specific needs of public-sector organisations.
- Expert guidance for technology planning and business case development.

About Jadu

Jadu helps organisations around the world build the best possible connections to their customers via our low-code, easy-to-use platform, and multi-award-winning design team

Our Team

Jadu was founded in 2001 by Suraj Kika, who today serves as Group Chief Executive Officer. He was soon joined by our Vice President of Engineering, Andy Perkins and Head of Brand and Film-maker, Lee Pilmore. Today, we're a distributed team with people and customers all over the world. It's our mission to 'Provide the tools to organise information across the enterprise and make it accessible to humans and machines' and accessibility is sewn into the fabric of everything we do. Jadu is now on a mission to become the World's most accessible digital platform.

The Way of Jadu

We believe that the tools we make should be beautiful, accessible to the highest quality and loved by the people that use them.

We are committed to our people, our culture and our values. "Conduct honest business" is our first directive. It's policy at Jadu to be honest about our business relationships - our customers are our partners, which means transparency and trust.

Our Jadu family is passionate about everything we do, we love to delight and amaze each other and our customers.

Some of our customers

Jadu is proud to help Local Government and Higher Education organisations all over the world to deliver outstanding digital experiences.

Working in partnership

At Jadu we work in partnership with our customers with a focus on collaboration, co-production and knowledge transfer. Our work is guided by our Prime Directives, representing our core values. We employ highly skilled teams and diverse delivery models, emphasising continuous learning and innovation in digital transformation. Our approach ensures effective partnerships, delivering tangible benefits to our clients.

Accreditations

Jadu is accredited with ISO 27001 for information security and has a robust organisation-wide Information Security Management System. The ISO 27001 accreditation is subject to continuous review and a programme of both internal and external audits to ensure on-going compliance.

Jadu also has Cyber Essentials accreditation which is audited annually which includes our hosting service delivery within the defined scope of this certification.

Jadu is also accredited to ISO 9001 in terms of quality management.

Jadu is always looking to improve adherence to other security standards / certifications and as such standards evolve, so please contact us if any of the standards you are looking for are not mentioned in this listing and we will be able to confirm details with you.
