1. Pricing model

Our pricing is simple and flexible. Your annual cost depends on:

- How many users you want to enrol
- How many courses you choose
- Whether you'd like any customisation from our Studio team

We'll provide you with a tailored quote so everything is clear from the start.

2. What's included in your course licences

Every selected course comes with:

- **Multi-device access -** learning that works wherever your people are
- **Ongoing updates -** legislation, best practice, and accessibility improvements
- **eBooks -** downloadable resources for offline reading or quick reference needs
- **Built-in accessibility -** screen reader testing, alt text, colour/contrast checks, and inclusive design
- **SCORM support -** ready to upload to your LMS (1.2 or 2004)
- **Helpdesk support -** quick, friendly assistance whenever you need it

In short: you pick the courses and we keep them current, accessible, and easy for your learners to use.
