Learning Nexus
Content Collection

Service definition

Learning Nexus

www.learningnexus.co.uk

The Learning Nexus (LN) Content Collection brings together expertly curated eLearning courses, our signature eBytes, and practical supporting resources - all designed by our in-house Studio team. Through engaging storytelling, clear guidance, and real-world scenarios, we create learning that's inclusive, impactful, and built to stick.

And the best bit? You can pick 'n' mix the titles that work for your organisation, tailoring learning to your goals and people.

Organisations can select courses from the following collections:

- **Equality, Diversity & Inclusion (EDI)**
- **Health & Safety**
- **Legal & Compliance**
- **Manager Empowerment**
- **Mental Health**
- **People Empowerment**
- **Specialist – Care**
- **Specialist – Housing**

The full, up-to-date list of available titles can be viewed here

www.learningnexus.co.uk

Service features

Selected course access

You choose the titles you want to roll out as part of your organisation's subscription – with support and updates included throughout the licence period.

Multi-device digital learning

All courses are built in HTML5 and can be accessed on desktop, tablet, and mobile devices.

Short, learner-friendly experiences

Our learning is short, sharp, and designed to make an impact - from five-minutes-and-under animated eBytes (perfect for quick refreshers and awareness campaigns) to engaging eLearning modules that typically take 15–20 minutes to complete.

Regular updates

Selected courses are updated in line with legislation, sector best practice, and LN's continuous improvement process. New releases can be added to your subscription upon request.

SCORM-compliant deployment

Courses can be hosted on your LMS via SCORM 1.2 or 2004 packages. Hosted access is also available.

Accessibility and inclusion

All courses undergo accessibility checks including:

- Screen reader compatibility
- Keyboard navigation
- Contrast and alt-text
- Inclusive design and language

eBooks included

All eLearning courses include a downloadable eBook - ideal for offline study or as a quick reference guide.

Customisation/editing options (additional)

All courses in the Content Collection can be customised by the LN Studio team to:

- Apply your organisation's branding
- Adjust to your tone of voice
- Add policy references or internal processes
- Include bespoke scenarios or assessments

Customisation is quoted separately based on requirements.

Benefits

- Cost-effective access to high-quality learning
- Only pay for and roll out the courses that your organisation actually needs
- Consistent, modern design that makes learning stick
- Updated and maintained by LN's award-winning Studio
- Accessible, inclusive, and designed to support real-world performance

Onboarding and implementation

Once you've selected your courses and the subscription is confirmed, LN will:

- Provide the SCORM files or hosted access for the chosen titles
- Support LMS testing and configuration
- Offer guidance for internal rollout and communications
- Provide ongoing support throughout the subscription term

Technical requirements

- SCORM-compliant LMS (if self-hosting)
- Reliable internet connection
- Modern browsers (e.g. Chrome, Edge, Firefox, Safari)

Support

You'll receive helpdesk support for:

- Technical assistance
- SCORM upload/support
- Troubleshooting
- Content queries related to your selected courses

Customer responsibilities

You'll be responsible for:

- Confirming LMS compatibility
- Managing user permissions and access
- Providing brand guidelines for any customisation
- Reporting any issues promptly
- Notifying LN of changes that could affect delivery

Licensing and access

- Annual subscription
- Pricing based on the number of users and selected courses
