Panacea Design Studio Management

Panacea Design Studio Management is designed for in-house design and creative teams that need clear visibility and control over workloads, priorities, and delivery. It provides an intuitive, structured platform for managing creative work from request through to completion, supporting efficient planning, scheduling, reviews, and delivery within a single secure environment.

The solution includes an integrated Resource Scheduler, enabling managers to allocate and balance work across individuals, teams, and external resources or agencies where required. Resource scheduling is fully aligned with job-bags and timesheets, allowing organisations to monitor capacity, utilisation, and progress accurately while reducing bottlenecks and reactive workload pressures.

Panacea Design Studio Management supports job tracking, task management, time recording, briefs, proofs, approvals, and document management, with real-time insight into workload, performance, and delivery against agreed priorities. A central archive for project files and assets, combined with role-based access and clear audit trails, supports collaboration, accountability, and governance.

The solution can be used as a standalone service or combined with other Panacea Software modules, including project management, purchase-to-pay, and contract management. This modular approach allows organisations to extend functionality over time, including optional interfaces with finance or ERP systems, creating a scalable workflow that adapts to changing operational needs.

"Like many council services, we face huge budget cuts year on year, while the need for effective communications remains high. Our skilled team has been able to meet these challenges head on, thanks to the automation, management information and cost savings we have gained using Panacea Software. It is no small feat for an in-house team of this size to meet ever increasing demands with ever decreasing budgets – with such high approval ratings from our growing client base."

Ros Daniel, Camden Council

"We are always looking to improve our reputation and save time and money for the council. Panacea Software is flexible and is constantly developing and providing us with new opportunities to support these aims."

John Hoang, Tower Hamlets Council

"The software is easy to use, and it is well supported by the responsive and proactive service we receive from Panacea."

Kim Parfitt, Buckinghamshire Council

"The great thing about Panacea's system is that it makes the best use of modern technology and is cut above the competitors in the market."

John Cannon, The Office for Environmental Protection (OEP)
