Panacea Supplier Management Software

Panacea Supplier Management is an intuitive solution for supplier and contract management teams, with integrated sourcing capability, designed for organisations that must comply with UK Government procurement regulations, including the Public Contracts Regulations 2015 (PCR), the Provider Selection Regime (PSR), and the Procurement Act 2023 (PA23). It provides a secure, integrated supplier portal enabling self-service and collaboration between suppliers and contract managers. As a registered eSender, Panacea Software supports compliant notice preparation and electronic transmission under PA23 and is developed in collaboration with the Cabinet Office to ensure ongoing and future regulatory compliance.

Panacea Supplier Management supports the full supplier lifecycle, including onboarding, validation, qualification, compliance, tiered reviews and performance management, with configurable tools to manage review timelines, documentation and data. The software is highly effective in supporting SME, VCSE and sole-trader engagement, linking supplier activity directly to live contract records. Supplier data capture and compliant notice publication are automated through direct integration with the UK Government's Central Digital Platform (CDP), Contracts Finder, and the Find a Tender Service.

This Panacea Software solution is easy to use and provides a fully integrated, compliant platform supporting:

- Supplier management
- Due diligence
- Contract management
- Performance monitoring
- Pipeline management
- Integrated sourcing, eProcurement and eTendering

Panacea Supplier Management streamlines end-to-end supplier processes, improves efficiency, eliminates duplication across supplier, procurement and contract records, and adapts easily to evolving regulatory and organisational requirements.

Additional Key Users are priced as set out below.				

Option to add Additional Key Users

Annual Subscription ¹	Panacea Supplier Management	e-Auction
Bundle of 5 x Key Users	£3,160	£570
Bundle of 10 x Key Users	£5,890	£1,110

Implementation and onboarding

One-off fees	Fixed Price	Daily rate
Software set-up ²		£990
Train-the-trainers ³		£990
Free user drop-in sessions ⁴		£990
Data migration ⁵		£990
Single sign-on ⁶	£495	

¹ Annual subscription fees are payable annually in advance. Our maintenance and award-winning support services are included in this fee.

² Set-up fees are charged on a per-implementation basis and are calculated using the published daily rate, depending on the scope and requirements. Fees include project management, data migration, configuration, testing, implementation and branding of the chosen package and users.

³ We recommend a train-the-trainer approach, in which we train your lead users into internal trainers for your company and support them at their initial Key User training sessions.

⁴ To encourage a smooth transition for your suppliers, evaluators and stakeholders we host online onboarding and training sessions for your Free User roles.

⁵ Data migration includes planning, mapping, testing and importing of your data from your legacy solution(s) onto Panacea Software.

⁶ We recommend and can enable single sign-on for your organisation via MS Entra ID (formerly Azure AD).

⁷ Our fully integrated e-Signing is available on Panacea Supplier Management via an interface with [Legalsign](#). The fee quoted here includes electronic signing of up to 1,000 documents per annum. 2,000 document credit bundles can be added to this

package for £2,200 per bundle (each bundle allowing e-signing of an additional 2,000 documents).

⁸ Expenditure capture and reporting against contract via finance system integration using our API endpoint.

⁹ Enterprise Subscription is available for organisations requiring a higher number of Key Users. Enterprise Subscription Fees attract the following discounts to our standard rates for additional key users: 5 % discount for 15+ Key Users; 10% discount for 31+ Key Users; 15% discount for 51+ Key Users; 20% discount for 101+ Key Users; 50% discount for 201 + Key Users.

¹⁰ Annual subscription fees to Panacea Supplier Management include storage of up to 50GB of data. Additional storage is charged per GB per annum as follows: 51-150GB at £4.95 per GB, 151-550 GB at £4.40 per GB, 551-1000GB at £3.85 per GB, 1001+ GB priced using the same tiered approach.

¹¹ Additional Panacea Software modules and functionality can be added to the platform for the fees published for these services on G-Cloud 15.

Please email tenders@panacea-software.com or call 0207 976 0116 if you require any further information.

"The Panacea system is easy to navigate and simplifies many administrative tasks which were cumbersome and time-consuming in our old system. The functionality for building tailored supplier questionnaires is very dynamic, and other features such as clarification Q&A are easy to use.

"We have a good working relationship with the Panacea team, who are proactive in responding to support requests, and open to our suggestions about further improvements or refinements to the system – which is especially important as UK public procurement sees big changes post-Brexit." **Jamie Thomas, NS&I**

"Panacea Software has allowed us to not only make savings but also find the right suppliers for the job. Once we became familiar with the software, it was straightforward and easy to use. The system enables our colleagues to self-serve, which is encouraged by the exceptional support provided by Panacea. They also provide support to the suppliers, which is brilliant, as it means you don't need to get involved in all the technical aspects. The support from the Panacea team itself is invaluable - there are very few suppliers who provide this level of support so efficiently and consistently." **Anushka Desai, Buckinghamshire Council**

"The team at Panacea Software have provided excellent support during the implementation of our solution and throughout the duration of our contract. They take the time to understand our requirements and objectives in detail and offer considered and effective resolutions to our queries. The team have worked closely with us to ensure we are making efficient use of the functionality to meet our needs." **Mark Jenkinson, Gentoo Group**
