Panacea Print Management

Panacea Print Management is designed for public sector organisations that need clear oversight and control of print and related services. It provides a structured, intuitive platform for managing print requirements from initial request through to approval, production coordination and delivery within a single secure environment.

The solution supports instant estimating, artwork submission, proofing, approvals, and supplier coordination, enabling organisations to manage a wide range of print services efficiently and consistently. Integrated workflows reduce manual administration while providing real-time visibility of job status, costs, and delivery progress.

Panacea Print Management enables collaboration with internal teams and external print suppliers through role-based access, shared workspaces, and centralised job records. Clear audit trails, approval histories, and reporting support accountability, brand control, and effective governance.

The solution can be used as a standalone service or combined with other Panacea Software modules, including purchase-to-pay, resource management, and contract management. This modular approach allows organisations to extend functionality over time, including optional interfaces with finance or ERP systems, creating a scalable workflow that adapts to changing operational needs.

Users

Most Panacea Software users have Free User access. Typical roles for Panacea Print Management include:

Key User roles:	Free User roles:
• Administrator	• Client
• Project Manager	• Supplier
• Contributor	

More information about these user roles can be found on our website, [here](#).

"I would recommend Panacea to any team facing the difficult task of managing a high volume of work while needing to reduce costs and improve services."

Carlton Wood (Print, Mail and Scanning Manager), Royal Borough of Kensington and Chelsea

"The software is easy to use, and it is well supported by the responsive and proactive service we receive from Panacea." **Kim Parfitt, Buckinghamshire Council**

Implementation and onboarding

One-off fees	Fixed Price	Daily rate
Software set-up ²		£990
Train-the-trainers ³		£990
Free user drop-in sessions ⁴		£990
Data migration ⁵		£990
Single sign-on ⁶	£495	

¹ Annual subscription fees are payable annually in advance. Our maintenance and award-winning support services are included in this fee.

² Set-up fees are charged on a per-implementation basis and are calculated using the published daily rate, depending on the scope and requirements. Fees include project management, data migration, configuration, testing, implementation and branding of the chosen package and users.

³ We recommend a train-the-trainer approach, in which we train your lead users into internal trainers for your company and support them at their initial Key User training sessions.

⁴ To encourage a smooth transition for your suppliers, evaluators and stakeholders we host online onboarding and training sessions for your Free User roles.

⁵ Data migration includes planning, mapping, testing and importing of your data from your legacy solution(s) onto Panacea Software.

⁶ We recommend and can enable single sign-on for your organisation via MS Entra ID (formerly Azure AD).

⁷ Enterprise Subscription is available for organisations requiring a higher number of Key Users. Enterprise Subscription Fees attract the following discounts to our standard rates for additional key users: 5 % discount for 15+ Key Users; 10% discount for 31+ Key

Users; 15% discount for 51+ Key Users; 20% discount for 101+ Key Users; 50% discount for 201 + Key Users.

⁸ Annual subscription fees to Panacea Software include storage of up to 50GB of data. Additional storage is charged per GB per annum as follows: 51-150GB at £4.95 per GB, 151-550 GB at £4.40 per GB, 551-1000GB at £3.85 per GB, 1001+ GB priced using the same tiered approach.

⁹ Additional Panacea Software modules and functionality can be added to the platform for the fees published for these services on G-Cloud 15.

Please email tenders@panacea-software.com or call 0207 976 0116 if you require any further information.

"We implemented Panacea Software to create a truly collaborative way of working with our colleagues and our suppliers; to automate our administration and financial processes; and to make our service more efficient. We are very proud of the excellent approval ratings we have achieved and are delighted to have saved the council so much money already. With Panacea, we have invaluable management information, and I don't think we could manage the volume and range of work we produce without it." **Kelly Law, Kent County Council**

"Introducing Panacea Software in Bolton was fundamental to achieving budget savings and implementing new ways of working. It has enabled us to manage all our projects more easily between staff, reduce duplication and provide a clear audit trail." **Karen Johnston, Bolton Council**

"We are always looking to improve our reputation and save time and money for the council. Panacea Software is flexible and is constantly developing and providing us with new opportunities to support these aims."

John Hoang, Tower Hamlets Council

"The great thing about Panacea's system is that it makes the best use of modern technology and is cut above the competitors in the market."

John Cannon, The Office for Environmental Protection (OEP)

"Like many council services, we face huge budget cuts year on year, while the need for effective service delivery remains high. Our skilled team has been able to meet these challenges head on, thanks to the automation, management information and cost savings we have gained using Panacea Software. It is no small feat for a team of this size to meet ever increasing demands with ever decreasing budgets – with such high approval ratings from our growing client base." **Ros Daniel, Camden Council**
