

360 DEFENCE (UK) LTD – SERVICE DEFINITION

C3. Threat Assessment (TxA)

Service attributes	
Service type	Lot 3: Cloud Support
Service name	
Service name	C3. Threat Assessment (TxA)
About 360D Service	
360 Defence (UK) Limited (360D) delivers defence grounded in threat-informed, attacker-shaped understanding of cyber, security and risk. We are specialists in adversary-centric analysis, decision-grade risk clarity and assurance-aligned outcomes, built on the principle that context, definitions and situational understanding are essential to defensible security.	
Service description	You are a target. Threat Assessment (TxA) determines the level of interest, from whom and why, giving leaders decision-grade clarity and providing risk teams an operational start point. 360D uses attacker-led analysis and Professional Head of Intelligence Assessment (PHIA) Probability Yardstick likelihood language to inform proportionate, defensible decisions.
Service categories	• Cloud Support Services

	○ Security Services ○ Security Strategy ○ Security Risk Management <i>This service is delivered under Cloud Support and does not include hosted platforms or managed services.</i>
Service features and benefits	
Features	• Identifies relevant threats , their intent and motivations • Confirm current threat capability against latest intelligence and tooling • Attacker-led analysis using professional intelligence analyst judgement • Professional Head of Intelligence Assessment (PHIA) Probability Yardstick likelihood language • Covers people, process, physical and cyber assets • Outputs decision-focused threat conclusions • Feeds Threat Modelling(TxM) and Risk Assessment(RxA)
Benefits	• Clear understanding of threat interest and targeting likelihood • Decision-grade insight for senior leaders and accountable owners • Shared threat picture across security and risk teams • Prevents misaligned investment against unlikely or outdated threats • Establishes defensible foundation for risk and assurance activities

Service Delivery benefit	You are a target. Knowing whether, by whom, and why enables smarter, defensible security decisions.
Service Implementation Planning	- Initial scoping discussion to confirm objectives, define scope and boundaries, and agree time-bound delivery constraints. - Analyst-led assessment conducted offline using structured threat methodology - Threat Assessment produced using attacker-led analysis and PHIA likelihood language - Delivery of written Threat Assessment report with optional briefing (remote by default; face-to-face by agreement)
Service scope	
TxA	Threat Assessment (TxA) identifies threat interest, intent and capability against defined organisational assets. It is not a Risk Assessment and does not assess control effectiveness. Outputs inform Threat Modelling (TxM), Risk Assessment (RxA), and related assurance activities.
Service constraints	Dependent on timely provision of contextual information. Delivery is analyst-led and conducted offline, with optional remote briefing of findings. Identifies threat interest, intent and capability only; does not constitute a Risk Assessment and does not assess control/countermeasure effectiveness.

	Outputs are designed to inform subsequent Threat Modelling and Risk Assessment activities.
Do you hold a suitably scope ISO27001 certificate for this G-Cloud Service.	ISO27001 is not applicable to this service. It is a skills-based service with no hosted platforms, operational systems or data custody.
