COMMERCIALS

This slide shows our rate card for digital and cloud support services under the G-Cloud 15 framework.

The listed roles represent the typical multidisciplinary team used to design, build and support cloud-based and digital solutions. Day rates are typically charged on a time and materials basis and applied according to the skills and level of responsibility required.

Team structure and resource levels are agreed with customers to ensure value for money and delivery assurance. Where scope and outcomes are clearly defined, we can also agree fixed-price engagements.

These roles primarily support our cloud engineering, application development, design, delivery and testing services. Cyber security and information assurance roles are shown on the following slide.

All rates are exclusive of VAT.
