Pricing Model for the Synchroteq System

Basis for charges

- Pricing is determined by the number of modules involved in creating the system.
- The initial implementation fee is a one-off charge and becomes due on the date of commencement of the contract.
- The license and support charge for the Synchroteq system is an annual charge and becomes due on the System Delivery Date.
- The annual license and support charge comprises of the basic Synchroteq system license plus the per module(s) license.

Please see the table below for a list of charges. These prices are exclusive of VAT.

Appendix – Pricing Schedule
