

THREAT PROTECTION ENVISIONING WORKSHOP

Improve the security posture and protection of your Microsoft 365 workloads

Every day companies are navigating an expanding sea of data and alerts, all while balancing the constraints of limited budgets and aging infrastructures.

Embark on a journey to fortify your cyber defences with a Threat Protection Engagement.

Together we'll craft a roadmap for your organisation's security, guided by the sage advice of our Microsoft security experts. Unveil the pressing dangers lurking within your email, identity, and data realms, gaining both clarity and actionable insights to mitigate vulnerabilities and enhance your security stance for a more resilient future.

TOGETHER, WE WILL:

1. REVIEW

Review your security goals & objectives.

2. IDENTIFY

Identify real threats and discovery vulnerabilities in your environment.

3. MAP

Map identified threats and vulnerabilities to specific solutions you need.

4. PLAN

Develop join plans and next steps.

OPTIONAL MODULES: CHOOSE THE APPROACH THAT'S BEST FOR YOU

Every organisation is different, so this engagement can be customised to fit your environment and goals. Take your pick from 3 of the 4 options:

Unified SecOps
Platform

Email
Protection

Endpoint & Cloud
Apps Protection

Microsoft Copilot for
Security Demo

BY THE END OF THIS 4 DAY ENGAGEMENT, YOU WILL HAVE GAINED

- ✓ Insight into the current state of your users and devices security posture management and threat protection.
- ✓ Increased protection of users and devices and a better understanding of how to prioritise and mitigate potential threats.
- ✓ Recommendations for reducing the attack surface area for your Microsoft 365 workloads with in-depth guidance on how to integrate M365 Defender into your security operations.
- ✓ A defined, personalised plan for actionable next steps, including a timeline for remediations, based on your organisation's specific security needs and objectives.
