

DATA SECURITY ENVISIONING WORKSHOP

Protect your organisation's vital data.

Data is your business's most precious asset, but also its biggest liability. As data grows exponentially, so do the threats to its security and privacy. Don't let hackers and bad actors exploit your data blind spots. Discovering and acting on data security risks quickly is essential.

Data security is not just about prevention, but also detection, investigation, and action. The Data Security Engagement helps you identify and address data risks in your organisation, ensuring compliance, trust, and safety for your business, employees, and customers.

BY ATTENDING THIS ENGAGEMENT, OUR EXPERTS WILL WORK WITH YOU TO:

1. UNDERSTAND

Understand the risks of dark organisational data.

2. LEARN

Learn about insider risk and how it may affect your organisation.

3. ASSESS

Assess your environment against key data protection standards.

4. PLAN

Get a report and analysis with recommended tools, services and next steps.

OPTIONAL MODULES: CHOOSE THE APPROACH THAT'S BEST FOR YOU

Every organisation is different, so this engagement can be customised to fit your environment and goals. Take your pick of 1 of 4 options:

Compliance
Manager

On-premises data
scanner

Windows
Endpoints

Communication
Compliance

BY THE END OF THIS 5 DAY ENGAGEMENT, YOU WILL HAVE GAINED

-  A Security Check report that includes findings and insights from the automated discovery process.
-  A list of recommendations and actionable next steps that will help mitigate the identified risks.
-  Clear look into Microsoft's approach to data security and mitigating and controlling insider risks.
-  Set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps.
