

MICROSOFT TEAMS

Enterprise-grade collaboration and communication

Microsoft Teams lets you bring people together by improving your organisation's communications and collaboration whilst reducing travel and increasing productivity. Whether you want to collaborate in real time on your Office 365-based documents, communicate more effectively with online meetings and group chat,

or even integrate some of your favourite third-party apps, Microsoft Teams has it all. It gives you the tools you need to become more productive and securely without compromising ease of use, available across all your devices to assist no matter where you are.

JUST SOME OF THE BENEFITS OF MICROSOFT TEAMS

AUDIO & VIDEO CONFERENCING

Deliver live communications, virtual meetings and training for up-to 10,000 attendees.

INSTANT MESSAGING & PRESENCE

Discover who's online and interact in real time, with persistent chat retaining info.

DESKTOP & APPLICATION SHARING

Easily share your screen or app, and even add a shared whiteboard and notes function.

VOICE BREAKOUT FOR TRADITIONAL PSTN NETWORKS

Allow your users to make phone calls globally with Microsoft PSTN Conferencing.

ENTERPRISE VOICE FUNCTIONALITY

Replace your existing phone hardware with advanced calling functionality in Teams.

CONTACT CENTRE & CALL RECORDING

Integrate with Contact Centre solutions, plus allow PCI-DSS/ GDPR compliant call recording.

AUTOMATION FOR SHAREPOINT

Automate creation and security for SharePoint libraries.

20 MILLION+ ACTIVE DAILY USERS

Teams is trusted by over 20m users globally; around 8m more than its nearest competitor!

Microsoft Teams seamlessly integrates with your existing apps
