

MODERN SECOPS ENVISIONING WORKSHOP

Gain a bird's eye view across your enterprise with SIEM for modern enterprises

The Modern Security Operations Engagement, previously known as Microsoft Sentinel Engagement, showcases the prowess of Modern SecOps in empowering enterprises.

Through savvy security analytics and insightful threat intelligence, it helps customers unveil active threats

quickly, allowing decision-makers to see the value in and deploy Modern SecOps for their cyber defence arsenal.

Choose from one or more of the optional modules to complete the experience and let our experts guide you through the insightful world of Modern SecOps with Microsoft Sentinel.

BY ATTENDING THIS 4 DAY ENGAGEMENT, OUR EXPERTS WILL WORK WITH YOU TO:

1. REVIEW

Understand the features & benefits of Microsoft Sentinel & Unified SecOps Platform.

2. IDENTIFY

Gain visibility into threats across email, identity, endpoints & non-Microsoft data.

3. UNDERSTAND

Better understand, prioritise, & mitigate potential threat vectors.

4. ROADMAP

Create a defined deployment roadmap based on your environment and goals.

5. PLAN

Develop joint plans & next steps.

OPTIONAL MODULES: CHOOSE THE APPROACH THAT'S BEST FOR YOU

Every organisation is different, so this engagement can be customised to fit your environment and goals. Pick from 1 of 3 options:

Third-party alerts & logs

Server Threat Detection

Microsoft Sentinel Cost Estimation

SOC Automation

Data Ingestion & Retention

MICROSOFT TECHNOLOGY INTEGRATIONS WE'LL REVIEW:

- Get hands-on to unearth and scrutinise potential threats using Microsoft Sentinel paired with the Unified SecOps Platform.
- Illuminate the shadowy corners of cyber threats looming over your Microsoft 365 and Azure clouds, as well as on premises territories.
- Discover how Microsoft Sentinel and Defender XDR can be your digital sentries, offering protection and responding to the array of cyber dangers.
