

AZURE MIGRATE ASSESSMENT ACCELERATOR

Assess workloads, identify modernisation opportunities, understand compatibility and predict consumption costs

Transparency's Migration Assessment Accelerator is designed to prepare you for your Microsoft Azure journey.

Leveraging the Microsoft Cloud Adoption Framework, specialised tooling and our migration expertise to deliver a clear, data-driven migration readiness report.

Incorporating expert-led recommendations for your server and application estate, our assessment accelerator helps you build an informed business case for migrating to Microsoft Azure.

ENGAGEMENT FLOW

1. KICK OFF WORKSHOP

- Migration strategy
- Assessment expectations
- TCO benchmarking
- Licensing
- Data collection checklist
- Ask the experts!

2. DATA COLLECTION

- Best in class tooling
- Simple tool installation
- Zero performance degradation
- Data Collection Integrity Checks
- Scan Environment

3. ASSESSMENT & PLANNING

- Confirm data health
- Assess workloads
- Map applications
- Apply migration strategy
- Migration Readiness Report creation

4. ASSESSMENT WORKSHOP

- Migration Readiness Report
- Application compatibility
- Total cost of ownership
- Modernisation candidates
- Migration planning
- POV Deployment Plan
- Microsoft Funding
- Next steps

OUTCOMES

The accelerator provides an executive ready Migration Readiness Report that includes:

 **Reduced migration risk** through visibility and data-driven planning

 **Faster time-to-cloud** through automation and expertise

 **Optimised costs** through pre-migration right-sizing

 **Improved executive confidence** through transparency and clear ROI analysis

This solution can be funded entirely through our partnership with Microsoft for eligible customers.
