

**G-Cloud 15 – Cloud Support  
Service Definitions  
January 2026**

## **1. About Us**

AMSA InfoSec Ltd is a professional services organisation providing specialist information assurance, secure architecture, and cyber security resiliency consultancy to public and private sector organisations in the UK.

AMSA InfoSec has experience in providing a wide range of specialist services for Cloud based solutions.

All our consultants hold SC clearance and a minimum of two industry recognised professional certifications.

## **2. Pricing**

Please refer to the AMSA InfoSec Pricing Document for resource rates. AMSA InfoSec pricing is based on the AMSA InfoSec Standard Rate Card which is a fixed daily rate. A consultant will be provided based on the SFIA Level expectations of the engagement and availability.

## **3. Invoicing Process**

Invoices will be submitted monthly subject to our terms and conditions. Payments can be made by BACS or purchase order; payment is expected within 30 days.

## **4. Customer Responsibilities**

Customer is to ensure any dependant or relevant organisational resources are available to work with AMSA InfoSec for the service to be delivered.

## 5. Services

| Service name        | Governance, Risk and Compliance (GRC)                                                                                                                                                                                                                                                                                       |
