Protecting the nation, business and people

Your **Trusted** Security Partner

Cyber Essentials

Compliance & Legislation

- **Government-supported initiative:** Cyber Essentials is a scheme supported by the UK government aimed at safeguarding against prevalent cyber threats.
- **Straightforward and cost-effective:** It offers a straightforward and cost-effective method for businesses to showcase their dedication to cybersecurity.
- **Trust from customers and partners:** By obtaining Cyber Essentials certification, companies can demonstrate to their customers and partners that they prioritise cybersecurity.
- **Defence against risks:** This certification assists in defending against common cyber threats and improves the overall security framework of the organisation.

Key Compliance Regulations and Laws

Our team can help you achieve and maintain key standards, including **Cyber Essentials, PCI DSS, SOC2, FTC, ISO, and DORA.**

- ✓ PCI DSS ensures secure handling of cardholder data to prevent fraud and fines.
- ✓ Cyber Essentials is a UK government-backed scheme to guard against common cyber threats.
- ✓ ISO/IEC 27001 sets international standards for managing information security risks.
- ✓ UK GDPR mandates protection of personal data, promoting transparency and accountability.

Our Customers

CyberLab is trusted by over 1,200 organisations to secure their operations, systems and data.

"The team are our trusted advisors; on hand to quickly respond to any queries."

Stewart Edwards, IT Security Manager
at South East Coast Ambulance
Service NHS Foundation Trust

"I'd recommend CyberLab not just for their expertise in the whole cyber security area, but for their personalised and professional approach."
