# SIEM, SERVER SUBSCRIPTION

| Product                 | SKU        | Description                                                                                                                                                                         | Unit Price/Year         |
|-------------------------|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| SIEM, 100-249 nodes     | S-N        | SIEM server. Priced per node, 100-249 nodes. Minimum 100 nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.     | £372                    |
| SIEM, 250-499 nodes     | S-N        | SIEM server. Priced per node, 250-499 nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.                        | £335                    |
| SIEM, 500-999 nodes     | S-N        | SIEM server. Priced per node, 500-999 nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.                        | £317                    |
| SIEM, 1000-2499 nodes   | S-N        | SIEM server. Priced per node, 1000-2499 nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.                      | £298                    |
| SIEM, 2500-4999 nodes   | S-N        | SIEM server. Priced per node, 2500-4999 nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.                      | £280                    |
| SIEM, 5000-9999 nodes   | S-N        | SIEM server. Priced per node, 5000-9999 nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.                      | £242                    |
| SIEM, 10000+ nodes      | S-N        | SIEM server. Priced per node, 10000+ nodes. Includes unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support.                         | £206                    |
| SIEM, cloud nodes       | S-CN       | SIEM server cloud nodes. Covers data ingestion from cloud services, such as hyperscalers and SaaS applications. One cloud node per vendor/service. Minimum 2 cloud nodes suggested. | £4,344                  |
| Director                | LP-DIR     | Central management module for Logpoint solutions. Requires a SIEM license.                                                                                                          | £22,405                 |
| Redundancy              | OP-RE      | High availability and failover. Requires a SIEM license.                                                                                                                            | 50% added to net price* |
| *Minimum annual amount: | € 9,000.00 |                                                                                                                                                                                     |                         |

# SIEM SAAS SUBSCRIPTION

| Product                                                                                                                                | SKU     | Description                                                                                                                                                                                                                | Unit Price/Year |
|----------------------------------------------------------------------------------------------------------------------------------------|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| SaaS data ingestion, 10 GB/day                                                                                                         | SAAS-DI | Logpoint SaaS. 10 GB per day of data ingestion. Includes Cloud Connector license, unlimited AgentX endpoint agents, unlimited other devices, Standard Success Plan and Standard Support. Minimum 20 GB ingestion required. | £9,226          |
| SaaS data retention, 30 days of 10 GB/day                                                                                              | SAAS-DR | Logpoint SaaS. 10 GB per day of data retention for 30 days. Minimum 90 days retention required. GB/day follows ingestion.                                                                                                  | £839            |
| SaaS data overage, 1GB/day                                                                                                             | SAAS-DO | Logpoint SaaS data overage fee. Overage is calculated as 1 GB/day, averaged monthly                                                                                                                                        | £69             |
| * SaaS data overage is charged monthly in arrears according to the average per GB of data ingested per day over the contracted amount. |         |                                                                                                                                                                                                                            |                 |

# SIEM ADD-ONS, SERVER AND SAAS, SUBSCRIPTION

| Product            | SKU    | Description                                                                                                                                                                                                                                                   | Unit Price/Year |
|--------------------|--------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| Automation         | SA-A   | SIEM server Automation add-on. Adds automated playbooks with data orchestration, investigation and response actions. Priced per entity. Requires SIEM license.                                                                                                | £11             |
| Case Management    | SA-CM  | SIEM server Case Management add-on. Adds ability to organize cases and collaboration capabilities for more effective investigations. Priced per entity. Requires SIEM license and Automation add-on license.                                                  | £17             |
| Behavior Analytics | SA-BA  | SIEM server Behavior Analytics add-on. Adds ML algorithms to analyze data and create behavior baselines to detect anomalous behavior. Priced per entity. Requires a minimum of 250 entities to build a sufficient baseline. Requires SIEM license.            | £34             |
| Add-ons bundle     | SA-BUN | SIEM server add-ons bundle. Package of all three Logpoint add-ons: Automation, Case Management and Behavior Analytics to provide comprehensive investigation and response capabilities with ML anomalous detection. Priced per entity. Requires SIEM license. | £46             |

# MSSP STARTER PACK SERVER SUBSCRIPTION, MSSP ONLY

| Product           | SKU        | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Unit Price/Year |
|-------------------|------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| MSSP Program Pack | OP-M-START | Mandatory for all MSSPs. Includes Logpoint Director license, 5 training seats (User, Admin, SOAR, Director, and NDR), NDR NFR license and training, 25 NFR subscription licenses for SIEM, Standard Success Plan, Academy Training for MSSPs, Industry Research access, and Marketing Support.<br>It is required as part of the MSSP Program Pack to also purchase an Extended Success Plan. Extended Support and/or Operations Monitoring services can be added at a reduced rate. Contact your Logpoint representative for further details. | E               |
