SUMMARY

This document sets out the terms and conditions associated with the RPC Learn service and forms an important part of the relationship between the Client and RPC, enabling the two parties to work together effectively.

About RPC

RPC UK Limited is a leading specialist in enterprise project management and project controls solutions based on Oracle Primavera technologies. Established in 1992, RPC has evolved from providing Primavera P3 training to becoming a top supplier of project management solutions across the UK and Ireland, serving both public and private sector clients.

With over 30 years of experience, RPC now offers end-to-end services including license provision, solution architecture, implementation, systems integration, hosting, training, and ongoing support. Our expertise spans multiple sectors such as Engineering & Construction, Aerospace & Defence, Utilities, Transportation, and Professional Services.

Since becoming 100% employee-owned in 2023, every team member has a direct stake in RPC, fostering a collaborative culture and strong sense of ownership. Our clients value our integrity, technical expertise, and people-focused approach. As a long-standing Oracle PartnerNetwork member and accredited Primavera partner, RPC holds multiple Oracle specialisms, including Unifier, P6, Oracle Primavera Cloud, and Risk Analysis, actively collaborating with Oracle on product development and innovation.

Recognized for excellence, RPC was named Oracle Global Partner of the Year - Construction & Engineering Industry Solutions in 2025 for our work in licensed NEC4 Contract Management solutions for Oracle Unifier. We deliver comprehensive project controls capabilities, including Earned Value Management, Contract Management, Change Management, Risk Management, and secure cloud-based Primavera P6 hosting. Our global track record and people-first culture enable clients to manage projects with confidence and transparency.

RPC Learn

At RPC, all our trainers are experienced in delivering training in a wide range of locations and situations, as required. We offer classroom training at our base in Leeds and a range of public or closed sessions, depending on the number of delegates you wish to book for. We also offer online public or closed training courses, following the same curriculum, but delivered over Microsoft Teams. Or our trainers can come to your own offices – and even tailor courses to your own specific industry or requirements.

Our Training Courses

We offer a range of Oracle Primavera P6 training, for beginners and for those seeking to extend their skills to a more advanced level. You can choose between P6 Professional and P6 Enterprise Project Portfolio Management (EPPM) as well as courses to develop an understanding of P6 application administration, dashboards and reporting, Earned Value Management, managing risk and more.

Primavera P6 Professional Fundamentals (Client Server)

This course leads participants through the entire project life cycle, from planning to execution. Topics include adding activities, assigning resources, and creating a baseline. Participants also gain a thorough background in the concepts of planning and scheduling.

Duration: 3 days

Course Delivery: Classroom or Online

Course Audience: Business Analysts, Functional Implementers, Project Manager, End Users

Prerequisite(s): Knowledge of project management principles

Course Topics

- Understanding P6 Data
- Enterprise Project Structure
- Creating a Project
- Creating a Work Breakdown Structure
- Adding Activities
- Creating Relationships
- Scheduling
- Assigning Constraints
- Using Reflection Projects
- Formatting Schedule Data
- Roles and Resources
- Assigning Roles
- Assigning Resources
- Analysing Resources
- Optimising the Project Plan
- Baselining the Project Plan
- Project Execution and Control
- Reporting Performance

Primavera P6 Professional Advanced (Client Server)

This Primavera P6 Professional Advanced training teaches you about resource management topics like manual allocation, bucket planning and levelling. Project management topics include:

This course provides in-depth resource management and project management training in Primavera P6 Professional. Resource management topics include manual allocation, bucket planning, and levelling. Project management topics include earned value analysis, advanced scheduling, storing period performance and change management.

Duration: 2 days

Course Delivery: Classroom or Online

Course Audience: Project Manager, End Users, Business Analysts, Functional Implementer

Prerequisite(s): Primavera P6 Professional Fundamentals

Course Topics

- Advanced Resource Analysis
- Summarisation and User Preferences
- Manual Resource Allocation
- Duration Types
- Levelling
- Store Period Performance
- Steps
- Percent Complete Types
- Earned Value
- Advanced Scheduling
- Global Change/UDF
- Change Management
- Integrated Master Schedules

Primavera P6 EPPM Fundamentals (Web Access)

This Primavera P6 EPPM Fundamentals training course teaches you how to create a project, add activities and relationships, assign resources, adjust the project plan to account for schedule delays and overallocated resources and analyse portfolios. You'll also learn how to customise the Personal Workspace and the Project Workspace to monitor project progress and communicate with team members.

Duration: 3 days

Course Delivery: Classroom or Online

Course Audience: Project Manager, End Users, Functional Implementer, Business Analysts

Prerequisite(s): Knowledge of project management principles

Course Topics

- Understanding P6 Data
- Creating a Project
- Creating a Work Breakdown Structure
- Adding Activities
- Creating Relationships
- Scheduling a Project
- Assigning Constraints
- Optimising the Project Schedule
- Viewing the Project Workspace
- Assigning Roles and Resources
- Calendars
- Baselining the Project Plan
- Executing the Project Plan
- Analysing the Updated Project
- Viewing Dashboards

Primavera P6 EPPM Advanced (Web Access)

This Primavera P6 EPPM Advanced training gives you hands-on experience with advanced resource management and project management in P6, Primavera's Web-based project management application.

Please note that this course uses the P6 Web interface. Case studies reinforce new skills and functionality.

Duration: 2 days

Course Delivery: Classroom or Online

Course Audience: End Users, Project Manager, Business Analysts, Functional Implementer

Prerequisite(s): Knowledge of project management principles, Primavera P6 Fundamentals

Course Topics

- Creating Resource Teams and Role Teams
- Viewing Portfolio Performance
- Viewing Portfolio Information
- Analysing Portfolios
- High-Level Resource Planning
- Managing Allocation
- Staffing Resource Requests
- Resource Levelling
- Advanced Scheduling

Primavera P6 Application Administration

This course covers how to build enterprise data structures and configure settings to support an enterprise implementation.

Duration: 2 days

Course Delivery: Classroom or Online

Course Audience: Functional Implementer, Project Manager, Administrator

Prerequisite(s): Knowledge of project management principles

Course Topics

- Managing the EPS
- Managing the OBS
- Defining Resources and Roles
- Enterprise Data
- User Access
- Planning the Project
- Setting Project Defaults
- Updating the Project
- Publishing Data and Reporting

Primavera P6 Dashboards and Reporting

Master project performance visibility with P6 EPPM dashboards, including overview of dashboards and what they are for, introduction to the calculated user defined field syntax, creating calculated project user defined fields, filtered portfolios, performance related portfolio views (charts and scorecards) and cost and schedule performance dashboards.

Duration: 1 day

Course Delivery: Classroom or Online

Course Audience: Business Analysts, EPPM Implementers, EPPM Administrators

Prerequisite(s): Able to understand simple logical programming techniques, Computer literate, Working knowledge of EPPM

Workshop Summary

Project performance visibility with P6 EPPM dashboards, including:

- Overview of dashboards and what they are for
- Introduction to the calculated user defined field syntax
- Creating calculated project user defined fields
- Creating filtered portfolios
- Creating performance related portfolio views (charts and scorecards)
- Creating cost and schedule performance dashboards

Workshop Topics

- Overview of dashboards and what they are for
- Introduction to the calculated user defined field syntax
- Creating calculated project user defined fields
- Creating filtered portfolios
- Creating performance related portfolio views (charts and scorecards)
- Creating cost and schedule performance dashboards

Primavera P6 EPPM Earned Value Management Fundamentals

This course is an introduction to the Earned Value Management (EVM) technique for measuring and monitoring project delivery progress and how EVM is applied in Primavera P6 EPPM. It is not intended to provide complete P6 functionality, resource management, or administration skills. Those topics are covered in more detail in other courses.

Part one of this course conveys the basic principles of EVM without recourse to any software tool, although it does refer to Oracle Primavera P6 in a very basic way to illustrate EVM principles. A detailed knowledge of the tool is not required and delegates will be shown, step by step, how to access the required information.

Part two is designed to give delegates a better understanding of how to implement Earned Value techniques in their P6 projects, with a considerable proportion of hands-on practice using a simple, sample project.

Duration: 1 day

Course Delivery: Classroom or Online

Course Audience: PMO team members, Primavera implementers and implementation team members, Primavera Administrators, Primavera P6 end users, IT Project Managers

Prerequisite(s): Used Primavera P6 EPPM (desirable), Basic knowledge of mathematics, Computer literate

Course Summary

Earned Value Management (EVM) increasingly plays a key part in an organisation's reporting of performance and reducing waste. This course explores the fundamental principles of EVM and how to configure, deploy and report EVM using P6. Understanding the standard data that is available is a key component of EVM reporting and this course explores how additional data can be made available when using the Primavera reporting database.

Course Topics

- The theory and concepts of EVM
- Understanding the algorithms used in EVM
- How to configure P6 EPPM and understating the decisions to be made
- Understanding the standard data available within a standard EPPM P6 environment and the additional data available when using the Primavera reporting database

Managing Risk in Primavera Risk Analysis

This course provides training for Primavera's Risk Management solution. Participants will gain a thorough background in the basic concepts of risk management. This 3-day course leads delegates through examples of specific risk modelling techniques and provides a lab-style workshop on the third day to allow students to apply the learned techniques.

Duration: 3 days

Course Delivery: Classroom or Online

Course Audience: Risk Analysts, Project Manager, Planner, Scheduler, Business Analysts, End Users, Functional Implementer

Prerequisite(s): Project planning/management fundamentals (desirable), Knowledge of Windows

Course Topics

- Basic schedule and cost risk analysis theory
- Risk Methodology
- Schedule Review
- Using three-point estimates for activities
- Running a quantitative risk analysis
- Understanding results
- Understanding project drivers
- Introduction to the Risk Register
- Integration with Primavera and Microsoft Project
- Cost & Resource Uncertainty
- Risk assessment templating
- Correlation
- Probabilistic Branching
- Risk Register (Risk Events)
- Response Planning - cost/benefit analysis
- Lab style workshop
- Applying risk analysis techniques

Learning Consultancy Service

Provides support when you require a bespoke learning solution or tailored course content to meet the specific needs of a programme. We work with clients across multiple industry verticals and with companies of all sizes to provide custom courseware and learning and development solutions that are objective focused and built around return on investment.

For all bespoke Training requirements RPC can be engaged using the RPC Consultancy Service which can also be found on G Cloud with associated Pricing and Terms and conditions

ORACLE

Partner

Find out more here:

rpc.uk.com

RPC UK Ltd is based in a semi-rural setting on the edge of Guiseley, West Yorkshire.

In 2023, RPC UK Ltd transitioned to a 100% employee ownership model, in which every member of our growing team has an equal stake in the business, reinforcing and fostering the exemplary team ethos and high level of client satisfaction of which we were already very proud.

Oracle Primavera Specialists

RPC UK Limited (RPC) is the UK and Ireland's foremost supplier of enterprise project management and planning solutions.

Having been an accredited Primavera partner since 1992, we are now a member of the Oracle Partner network in the Cloud Sell and License and Hardware tracks.

Delivering Software Solutions

RPC has gained a strong reputation for successfully delivering tailored and integrated project controls software solutions to our clients in boutique to blue chip organisations in both the public and private sectors. We work across multiple industry verticals with particular expertise in the following areas:

- Engineering and Construction
- Aerospace and Defense
- Travel and Transportation
- Utilities
- Professional Services

We configure and implement solutions built in the Oracle Primavera toolset and also develop our own custom solutions to expedite the execution of common project controls processes including Earned Value Management, Contract Management, Risk Management, Change Management and more.

Alongside this, we also offer Primavera P6 Hosting on a secure Oracle Cloud Infrastructure platform and a subscription Support service.

Oracle Primavera Training

RPC is an Oracle Approved delivery partner for Primavera product education and training throughout the UK and Ireland, and we deliver training to clients worldwide, both in person and via our online training model.

We can deliver standard curriculum courses or bespoke training, as required, from our own training venue on the outskirts of Leeds, on client premises or online via Microsoft Teams. We also offer eLearning via our own hosted platform, for delivery via a client's own LMS system or fully bespoke as an enterprise solution.

Oracle Global Partner of the Year

In 2025, RPC was awarded the Oracle Global Partner of the Year Award in the Construction and Engineering Industry Solutions category in recognition of our innovative work in creating and licensing to Oracle a NEC4 Contract Management solution for Oracle Unifier. This global award puts RPC firmly on the map as the UK's Oracle Primavera Partner of choice and aligns with our company mission to create and deliver Oracle project controls solutions that empower project teams.
