

Adzuna Intelligence - Pricing

All fees are ex VAT, based on a 12 month subscription licence and subject to yearly rises. Our pricing structures across key products are listed below.

Adzuna Labour Market Intelligence portal

A per-user subscription-based product:

- £15,000 per year for 1 user
- £30,000 per year for up to 5 users
- Pricing available for user numbers not listed above
- Discounts available for limited geographic coverage

API

Prices are for unlimited access for normal business purposes and subject to Adzuna's fair usage policy. Typical pricing for API access:

- Website API from £2,860 per month
- Labour Market Intelligence API from £4,950 per month

Raw Data

Raw data fees are determined by the number of countries, data fields and time series required e.g. years of historical or new updates of data. Typical pricing for raw data:

- £15,400 per historical year
- £5,720 per month for new updates
- Discounts available subject to coverage

Custom Aggregation

Aggregation costs are a function of the amount of consulting and processing time required with the account management and data science teams. See SFIA rate card.

From ~£10,000 per dataset.

Licensing Type

Subject to the application of usage, additional licensing fees may be required for i) publishing ii) dissemination to third parties or iii) productization

Data and product enhancements required outside of the roadmap may be subject to additional fees.

Please see the SFIA rate card attached to cover professional service fees relating to custom aggregations.
