

Adzuna Job Search - Pricing

Our pricing structure for this product is as follows (buyer may choose either 1 or 2):

1. Fixed pricing

For very high volume instances of our Job Board offering, where our API based pricing would result in very high variable costs, we offer a fixed price offering of **£370,000.00 + VAT per calendar month**.

We reserve the right to review pricing in line with RPI for contract extensions beyond initial periods. We can also offer custom pricing options for large custom contracts - available on request if desired.

2. Outcome-based pricing

We are fully confident in our ability to deliver results. For qualified projects, we are open to waiving upfront service fees in exchange for a mutually agreed percentage of the ROI or revenue uplift generated.

Custom product enhancement

If required it is also possible to customise the product to provide additional specific functionality - for example the ability to provide machine-learning-based career recommendations/advice to jobseekers based on their profile. Custom pricing options available on request.

Please note: these prices do not include any exit or off-boarding charges.

For labour market data and analytics licensing, please refer to the Adzuna Intelligence service listing.
