

NINTH WAVE

SMARTCORE PRICING

G-Cloud 15

The different types of SmartCore users are:

Full user	Full access, including system administration and configuration
Light user	Full access, apart from system administration and configuration. Access the system occasionally – typically once a week.
Timesheet user	Timesheet entry and can view data and documents in SmartCore.
Read-only user	Can view data and documents in SmartCore.

Users are named individuals and the customer can add, retire or delete users as required.

SmartCore is priced according to the number of Full User Equivalent (FUE) users, with Light users valued at 50% of a Full user and Timesheet users at 30% of a Full user. Read-only users are free of charge.

Full, Light and Read-only users are allowed up to the ratio of 1 Full : 2 Light : 4 Read-only

SmartCore pricing, covering the software licence, support, maintenance, upgrades and hosting for a given number of Full User Equivalent (FUE) users is:

Users (FUE)	Price/ Month
20	£3,000
30	£3,400
40	£3,800
50	£4,200
60	£4,600
70	£5,000
80	£5,400
90	£5,800
100	£6,200

Users (FUE)	Price/ Month
200	£8,200
300	£10,200
400	£12,200
500	£14,200
600	£16,200
700	£18,200
800	£20,200
900	£22,200
1000	£24,200

Ninth Wave implementation services are charged at £1,000 per day.

These prices are ex-VAT and are subject to a one year minimum term agreement and Ninth Wave standard terms.

For a two year minimum term agreement the above prices would be reduced by 7% for those users licenced for the two year term.
