

PRICING DOCUMENT

Unify Mobile Detection System (UMDS) for prisons and secure facilities

The cost to install the Unify Mobile Detection System (UMDS) varies according to the size of each establishment and the infrastructure already in place.

The UMDS can be self-funded or can generate an income where appropriate.

Main solution

1. UMDS Detectors (number will depend on size of area to be covered)
2. UMDS Software Detector License
3. UMDS Server
4. PoE Switches

Optional Extras

1. Infrastructure upgrade

Cost

The cost of the UMDS starts at 82p per prisoner per day for a two year contract, this does not include VAT. Longer term contracts and outright purchase prices are available and can affect the price. The minimum contract is one year.
